Independent auditor's report to the shareholders of AlRayan Bank (Q.P.S.C.) (Formerly known as Masraf Al Rayan (Q.P.S.C.))

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of AlRayan Bank (Q.P.S.C.) (Formerly known as Masraf Al Rayan (Q.P.S.C.)) ("ARB" or the "Bank") and its subsidiaries (together the "Group") as at 31 December 2025 and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with the Financial Accounting Standards ("FAS") issued by the Accounting and Auditing Organization for Islamic Financial Institutions ("AAOIFI") as modified by the Qatar Central Bank ("QCB").

What we have audited

The Group's consolidated financial statements comprise:

- The consolidated statement of financial position as at 31 December 2025;
- The consolidated statement of income for the year then ended;
- The consolidated statement of comprehensive income for the year then ended;
- The consolidated statement of income and attribution related to quasi-equity for the year then ended;
- The consolidated statement of changes in equity for the year then ended;
- The consolidated statement of cash flows for the year then ended;
- The consolidated statement of changes in off-balance sheet assets under management for the year then ended; and
- The notes to the consolidated financial statements, which include significant accounting policies and other explanatory information.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code) as applicable to audits of financial statements of public interest entities and the ethical requirements that are relevant to our audit of the consolidated financial statements in the State of Qatar. We have fulfilled our other ethical responsibilities in accordance with the IESBA Code and the ethical requirements in the State of Qatar.

Our audit approach

Overview

Key audit matters

- Impairment of financing facilities
- Impairment of goodwill

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the consolidated financial statements. In particular, we considered where the Directors made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the consolidated financial statements as a whole, taking into account the structure of the Group, the accounting processes and controls, and the industry in which the Group operates.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<p>Impairment of financing facilities</p> <p>Impairment allowances represent the Directors' best estimate of the losses arising from credit risk and particularly from financing facilities (financing assets and off-balance sheet financing). As described in the summary of significant accounting policies to the consolidated financial statements, the impairment losses have been determined in accordance with FAS 30.</p> <p>We focused on this area because the Directors make complex and subjective judgements over both the amount and the timing of recognition of impairment, such as:</p> <ul style="list-style-type: none"> • Determining criteria for significant increase in credit risk. • Choosing appropriate models and assumptions for the measurement of Expected Credit Losses ("ECL") including Probability of Default ("PD"), Loss Given Default ("LGD"), and Exposure at Default ("EAD"). • Establishing the relative weighting of forward-looking scenarios for each type of product and the associated ECL. • Establishing groups of similar assets for the purpose of measuring the ECL. • Determining disclosure requirements in accordance with the FAS 30. <p>Further, financing assets and off-balance sheet financing are material within the overall context of the consolidated financial statements.</p> <p>As of 31 December 2025, the Group's gross financing facilities subject to credit risk comprised financing assets (net of deferred profit) of QAR 123,627,951 thousand and off-balance sheet financing of QAR 15,483,940 thousand, as disclosed in Notes 10 and 33.</p> <p>The corresponding allowances for impairment were QAR 5,014,683 thousand for the financing assets and QAR 77,545 thousand for the off-balance sheet financing, with further details provided in Notes 10 and 20 of the consolidated financial statements.</p> <p>Information on the credit risk and the Group's credit risk management is provided in Note 4 to the consolidated financial statements.</p>	<p>Our audit procedures in relation to this key audit matter included the following:</p> <ul style="list-style-type: none"> • Assessed the design and tested the operating effectiveness of the relevant key controls around origination and approval of financing facilities, monitoring of credit exposures, and impairment calculation. • Evaluated the appropriateness of the Group's impairment provisioning policy in accordance with the requirements of FAS 30. • Used our own internal experts to independently assess the reasonableness of the ECL methodology developed and applied by Directors including model risk parameters (PD, LGD, and EAD), forward-looking information, associated weighting, and staging analysis. • Obtained an understanding of and tested the completeness and accuracy of the historical and current datasets used for the ECL calculation. • Tested a sample of financing facilities to determine the appropriateness and application of staging criteria. • Obtained an understanding of the methodology used to identify and calculate individual impairment allowance for stage 3 exposures and tested a sample of such exposures against the methodology. • Obtained samples of the latest available credit reviews conducted by the Bank and checked that they include appropriate assessment and documentation of borrowers' ability to meet repayment obligations (principal, profit, and fees). • Evaluated the adequacy of the consolidated financial statements disclosures to determine if they were materially in accordance with the requirements of FAS 30.

Key audit matter

Impairment of goodwill

The Group's intangible assets include goodwill at 31 December 2025 with a carrying amount of QAR 877,486 thousand. International Accounting Standard (IAS) 36 'Impairment of Assets' requires goodwill arising in a business combination to be tested for impairment at least annually.

The assessment of the value in use ("ViU") for the Group's cash generating units ("CGUs") is a complex process involving subjective estimates. This assessment considers historical trends, future business strategy, and the overall projected growth of the banking industry. In particular, the determination of ViUs is highly sensitive to key assumptions such as terminal growth rates and discount rates.

We considered the Group's goodwill impairment assessment to be a matter of significance due to the significant judgements and assumptions made by the Directors in performing the impairment assessments.

Following the Directors' assessment, no impairment has been recognised for the year ended 31 December 2025.

Information on the impairment of goodwill is provided in Note 14 to the consolidated financial statements.

How our audit addressed the key audit matter

Our audit procedures in relation to this key audit matter included the following:

- We obtained an understanding of the business process for the goodwill impairment assessment, identified the relevant internal controls, assessed their design, and tested their operating effectiveness on a sample basis.
- We assessed the reliability of the Group's budgets included in the business plans by comparing current period budgets to actual results and evaluating differences noted against underlying documentation and explanations obtained from the Directors. We also agreed the projections used to calculate cash flow forecasts to the latest approved budgets and/or business plans.
- We engaged our internal valuation experts to support us in assessing the assumptions and methodology used by the Directors for each significant cash generating unit.
- We tested the mathematical accuracy of the valuation models used by the Directors. We also assessed the appropriateness of the valuation methodology applied by the Directors, with reference to market practice and the requirements of International Accounting Standard (IAS) 36 'Impairment of Assets'.
- We performed sensitivity analyses to determine the impact of changes in individual key assumptions, namely the discount rates and terminal growth rates, whilst holding all other assumptions unchanged, that would result in an impairment. We considered whether such changes were reasonably likely.
- We also assessed the adequacy of the related disclosures provided in Note 14 to the consolidated financial statements, in particular the sensitivity disclosures in relation to reasonably possible changes in assumptions that could result in impairment.

Other information

The Directors are responsible for the other information. The other information comprises the Board of Directors' Report and the supplementary financial information to the consolidated financial statements (but does not include the consolidated financial statements and our auditor's report thereon), which we obtained prior to the date of this auditor's report, and the complete annual report, which is expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the complete annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Directors and those charged with governance for the consolidated financial statements

The Directors are responsible for the preparation and fair presentation of the consolidated financial statements in accordance with FAS issued by AAOIFI as modified by QCB and with the requirements of the Qatar Commercial Companies Law number 11 of 2015, as amended by Law number 8 of 2021, and QCB regulations, and for such internal control as the Directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Further, as required by the Qatar Commercial Companies Law number 11 of 2015, as amended by Law number 8 of 2021, we report that:

- We have obtained all the information we considered necessary for the purpose of our audit;
- The Bank has maintained proper books of account and the consolidated financial statements are in agreement therewith;
- The financial information included in the Board of Directors' report is in agreement with the books and records of the Bank; and
- Nothing has come to our attention, which causes us to believe that the Bank has breached any of the provisions of the Qatar Commercial Companies Law number 11 of 2015, as amended by Law number 8 of 2021, or of its Articles of Association, which would materially affect the reported results of its operations or its financial position as at 31 December 2025.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

1 REPORTING ENTITY

AlRayan Bank (Q.P.S.C.) (formerly known as Masraf Al Rayan (Q.P.S.C.)) ("the Bank") is an entity domiciled in the State of Qatar and was incorporated on 4 January 2006 as a Qatari Public Shareholding Company under Qatar Commercial Companies' Law No. 5 of 2002, as amended by Qatar Commercial Companies' Law Number 11 of 2015 and Law Number 8 of 2021 (the "Commercial Companies Law"), under decision Number 11 of 2006. The commercial registration number of the Bank is 32010. The address of the Bank's registered office is at P.O. Box 28888, Lusail Marina, Qatar. The consolidated financial statements of the Bank for the year ended 31 December 2025 comprise the Bank and its subsidiaries (together referred to as "the Group" and individually as "Group entities"). The Group is primarily involved in Islamic banking, financing and investing activities, and has 13 branches in Qatar. The Parent Company / Ultimate Controlling Party of the Group is AlRayan Bank (Q.P.S.C.).

On 7 January 2021, the Bank and Al Khalij Commercial Bank (al khaliji) P.Q.S.C. ("Al Khaliji") have entered into a merger agreement as approved by the Board of Directors of both banks, which was subsequently approved by the shareholders of both banks at their respective Extra-Ordinary General Assemblies held on 5 October 2021 and 6 October 2021. On 2 November 2021, Qatar Central Bank ("QCB") approved the Bank's merger by way of absorption pursuant to Article 278 of the Commercial Companies Law and Article 161(2) of Law Number 13 of 2012 issuing the Qatar Central Bank Law and Regulation of Financial Institutions (the "QCB Law") and the merger agreement (the "Merger"). On 30 November 2021, the effective date of the merger, Al Khaliji was dissolved and the Bank which became the remaining legal entity, continued to conduct all operations in accordance with Shari'a principles and absorbed the assets and liabilities of Al Khaliji.

During 2024, the Bank completed a comprehensive rebranding strategy aimed at enhancing brand recognition and aligning its identity with the evolving market and customer needs. This rebranding initiative included a new brand identity, "AlRayan Bank", and an updated logo that embody the continuous evolution of the Bank and its renewed strategic focus as a contemporary Islamic bank. In 2025, the legal name of the Bank was changed from Masraf Al Rayan (Q.P.S.C.) to AlRayan Bank (Q.P.S.C.).

The principal subsidiaries of the Group are as follows:

Entity's name	Country of incorporation	Entity's capital	Entity's activities	Effective percentage of ownership	
				2025	2024
Al Rayan Investment L.L.C.	Qatar	USD 100,000,000	Investment banking	100.00%	100.00%
Al Rayan (UK) Ltd ¹	UK	GBP 100,000,000	Investment activities	-	-
Al Rayan Bank plc ¹	UK	GBP 121,218,700	Islamic banking	73.76%	73.76%
Al Rayan Partners L.L.C. ⁶	Qatar	QAR 10,000,000	Real estate consulting	100.00%	100.00%
Lusail Waterfront Investment Co.	Cayman Islands	USD 100	Investment activities	100.00%	100.00%

MAR Finance L.L.C. ⁴	Qatar	QAR 1,000	Sukuk issuance	100.00%	100.00%

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

1 REPORTING ENTITY (continued)

¹ During 2024, the Board of Directors of Al Rayan (UK) Ltd (the “Company”) decided to dissolve the Company. Prior to its dissolution, the Company owned 98.34% of its subsidiary, Al Rayan Bank plc. Effectively, the Bank owned 73.76% of Al Rayan Bank plc. Following the Company’s dissolution, its equity interest in Al Rayan Bank plc was transferred directly to its ultimate shareholders. As a result, the Bank now holds a direct ownership stake of 73.76% in Al Rayan Bank plc.

² MAR Sukuk Limited was incorporated in the Cayman Islands as an exempt company with limited liability for the purpose of sukuk issuance and other activities, for the benefit of the Bank.

³ Subsidiaries of Al Khaliji that became subsidiaries of the Group upon completion of the merger between the Bank and Al Khaliji on 30 November 2021.

⁴ MAR Finance L.L.C. was incorporated in Qatar Financial Centre as a limited liability for the purpose of sukuk issuance and other activities, for the benefit of the Bank.

⁵ In relation to the merger, Al Khaliji France S.A. continues to operate in its present status as a conventional bank. As of reporting date, there are no plans in place to convert the portfolio of the subsidiary into Shari'a-compliant products. Accordingly, the net profit earned by the subsidiary is not included in the consolidated statement of income, and the subsidiary's assets and liabilities are presented under other assets and other liabilities in the consolidated statement of financial position.

⁶ In a meeting held on 26 October 2023, the Board of Directors of Al Rayan Partners L.L.C. decided to liquidate the entity. The liquidation which was approved by the QCB in 2024 is currently in progress as of the reporting date and is being carried out in accordance with the applicable legal and regulatory requirements in Qatar.

⁷ AKCB Finance Limited was dissolved effective 10 July 2025, pursuant to the certificate of dissolution obtained by the Company.

The Group does not have any subsidiaries with material non-controlling interests.

The Group’s management has made an assessment of the Group’s ability to continue as a going concern and is satisfied that the Group has the resources to continue in business for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt upon the Group’s ability to continue as a going concern. Therefore, the consolidated financial statements continue to be prepared on the going concern basis.

The consolidated financial statements of the Group for the year ended 31 December 2025 were authorised for issuance in accordance with a resolution by the Board of Directors on 21 January 2026.

(a) Shari'a governance framework

The Group follows Accounting and Auditing Organization for Islamic Financial Institutions (“AAOIFI”) Governance Standards (GSs) in their entirety along with the regulators’ requirements related to Shari'a governance / Shari'a governance framework. In line with the requirements of the same, the Group has a comprehensive governance mechanism comprising of Shari'a supervisory board and internal Shari'a audit. These functions perform their responsibilities in line with AAOIFI GSs as well as the regulators’ requirements related to Shari'a governance.

The GSs also require the Board of Directors and those charged with governance to discharge their duties in line with Shari'ah governance and fiduciary responsibilities.

(b) Shari'a principles and rules

The Group follows the hierarchy of Shari'a principles and rules as defined in paragraph 165 of FAS 1 “General Presentation and Disclosures in the Financial Statements”.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

2 BASIS OF PREPARATION**(a) Statement of compliance**

The consolidated financial statements have been prepared in accordance with the Financial Accounting Standards (“FASs”) issued by the Accounting and Auditing Organisation for Islamic Financial Institutions (“AAOIFI”) as modified by QCB. In line with the requirements of AAOIFI, for matters that are not covered by FAS, the Group uses the guidance from the relevant IFRS accounting standards as issued by the International Accounting Standards Board (“IASB”).

The Bank has adopted QCB Circular 13/2020 dated 29 April 2020 (execution date), which modifies the requirements of FAS 33 “Investments in Sukuk, shares and similar instruments” and FAS 30 “Impairment, credit losses and onerous commitments” and requires Islamic Banks to follow principles of IFRS 9 “Financial Instruments” in respect of equity-type investments carried at Fair Value Through Other Comprehensive Income (“FVOCI”) and repurchase agreements. The Bank has adopted the circular from the effective date and the changes to the accounting policies have been adopted prospectively by the Bank.

(b) Basis of measurement

The consolidated financial statements have been prepared under the historical cost convention, except for the measurement at fair value of financial investments classified as “investments at fair value through other comprehensive income”, “investments at fair value through income statement” and “Shari'a-compliant risk management instruments”.

(c) Functional and presentational currency

The consolidated financial statements are presented in Qatari Riyals (“QAR”), which is the Bank’s functional and presentational currency, and all values are rounded to the nearest QAR thousand except when otherwise indicated. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

(d) Use of estimates and judgments

The preparation of the consolidated financial statements in conformity with FASs requires the directors and management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the consolidated financial statements are described in Note 5.

(e) Presentation of consolidated financial statements

The Group presents its consolidated statement of financial position in order of liquidity based on the Group’s intention and perceived ability to recover/settle the majority of assets/liabilities of the corresponding financial statement line item. An analysis regarding recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in Note 4.4.2 and Note 35.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented, unless otherwise stated, in these consolidated financial statements and have been applied consistently by Group entities.

(a) New standards, amendments and interpretations**(i) New standards, amendments and interpretations effective from 1 January 2025***FAS 42 – Presentation and disclosures in the Financial Statements of Takaful Institutions*

AAOIFI has issued FAS 42 in 2022. This standard supersedes the earlier FAS 12 – General Presentation and Disclosures in the Financial Statements of Islamic Insurance Companies". The objective of this standard is to set out the overall requirements for the presentation of financial statements, the minimum requirement for the contents of and disclosures in the financial statements and recommended structure of financial statements that facilitates fair presentation in line with Shari'a principles and rules for Takaful institutions. This standard shall be effective for the financial periods beginning on or after 1 January 2025 with early adoption permitted if adopted alongside FAS 43 – Accounting for Takaful: Recognition and Measurement, provided that FAS 1 (Revised 2021) has already been adopted or is simultaneously adopted.

The adoption of this standard did not have significant impact on the Group's presentation and disclosures in the consolidated financial statements.

FAS 43 – Accounting for Takaful: Recognition and Measurement

AAOIFI has issued FAS 43 in 2022. The objective of this standard is to set out the principles for the recognition and measurement of Takaful arrangements and ancillary transactions with the objective of faithfully representing the information related to these arrangements to the relevant stakeholders. The standard should be read in conjunction with *FAS 42 – Presentation and disclosures in the Financial Statements of Takaful Institutions*. This standard shall be effective for the financial periods beginning on or after 1 January 2025 with early adoption permitted if adopted alongside *FAS 42 – Presentation and disclosures in the Financial Statements of Takaful Institutions*.

The adoption of this standard did not have significant impact on the Group's recognition and measurement.

(ii) New standards, amendments and interpretations issued but not yet effective

The Group has not yet applied the following new and revised FASs that have been issued but are not yet effective. These standards are currently in process of being assessed by the management of the Group to consider any implication in the current or future reporting periods and on foreseeable future transactions.

FAS 45 – Quasi-Equity (Including Investment Accounts)

AAOIFI has issued FAS 45 in 2023. This standard prescribes the principles of financial reporting related to the participatory investment instruments (including investment accounts) in which an Islamic financial institution controls the underlying assets (mostly, as a working partner), on behalf of the stakeholders other than the owners' equity. Such instruments (including, in particular, the unrestricted investment accounts) normally qualify for on-balance-sheet accounting and are reported as quasi-equity. This standard also provides the overall criteria for on-balance-sheet accounting for participatory investment instruments and quasi-equity, as well as, pooling, recognition, derecognition, measurement, presentation and disclosure for quasi-equity. It further addresses financial reporting related to other quasi-equity instruments and certain specific issues. This standard shall be effective for the financial reporting periods beginning on or after 1 January 2026.

The Group shall address the requirements of *FAS 45 – Quasi-Equity (Including Investment Accounts)* on the effectivity date of the standard.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(a) New standards, amendments and interpretations (continued)****(ii) New standards, amendments and interpretations issued but not yet effective (continued)***FAS 46 – Off-Balance-Sheet Assets Under Management*

AAOIFI has issued FAS 46 in 2023. This standard prescribes the criteria for characterisation of off-balance-sheet assets under management, and the related principles of financial reporting in line with the “AAOIFI Conceptual Framework for Financial Reporting”. The standard encompasses the aspects of recognition, derecognition, measurement, selection and adoption of accounting policies, related to off-balance-sheet assets under management, as well as certain specific aspects of financial reporting such as impairment and onerous commitments by the institution. The standard also includes the presentation and disclosure requirements, particularly aligning the same with the requirements of the revised *FAS 1 “General Presentation and Disclosures in the Financial Statements”* in respect of the statement of changes in off-balance-sheet assets under management. This standard, along with, *FAS 45 “Quasi-Equity (Including Investment Accounts)”*, supersedes the earlier FAS 27 “Investment Accounts”. This standard shall be effective for the financial periods beginning on or after 1 January 2026 and shall be adopted at the same time of adoption of *FAS 45 – Quasi-Equity (Including Investment Accounts)*.

The Group shall address the requirements of *FAS 46 – Off-Balance-Sheet Assets Under Management* in the Group’s “Statement of Changes in Off-balance Sheet Assets under Management” on the effectiveness date of the standard.

FAS 47 – Transfer of Assets Between Investment Pools

AAOIFI has issued FAS 47 in 2023. This standard prescribes the financial reporting principles and disclosure requirements applicable to all transfers between investment pools related to (and where material, between significant categories of) owners’ equity, quasi-equity and off-balance-sheet assets under management of an institution. It requires adoption and consistent application of accounting policies for such transfers in line with Shari'a principles and rules and describes general disclosure requirements in this respect. This standard shall be effective for the financial periods beginning or after 1 January 2026 and supersedes the earlier *FAS 21 – “Disclosure on Transfer of Assets”*.

FAS 48 – Promotional Gifts and Prizes

AAOIFI has issued FAS 48 on 9 December 2024. This standard prescribes the accounting and financial reporting requirements applicable to promotional gifts and prizes awarded by the Islamic financial institutions to their customers, including quasi-equity and other investment accountholders. This standard shall be effective for the financial periods beginning or after 1 January 2026.

FAS 49 – Financial Reporting for Institutions Operating in Hyperinflationary Economies

AAOIFI has issued FAS 49 on 19 December 2024. This standard outlines the principles governing financial reporting for the institutions applying AAOIFI FASs operating in hyperinflationary economies, duly considering the relevant Shari'a principles and rules and their unique business models. This standard shall be effective for the financial periods beginning or after 1 January 2026 with early adoption encouraged.

FAS 50 – Financial Reporting for Islamic Investment Institutions (Including Investment Funds)

AAOIFI has issued FAS 50 on 24 December 2024. This standard supersedes the earlier FAS 14 “Investment Funds.” This standard sets out the principles of financial reporting for Islamic Investment Institutions (“IIIs”) particularly prescribing overall requirements for the presentation, minimum contents and recommended structure of their financial statements in a manner that facilitates truthful and fair presentation in line with Shari'a principles and rules. This standard shall be effective on the annual financial statements of an III or after 1 January 2027.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(a) New standards, amendments and interpretations (continued)****(ii) New standards, amendments and interpretations issued but not yet effective (continued)***FAS 51 – Participatory Ventures*

AAOIFI has issued FAS 51 on 10 November 2025. This standard prescribes accounting and financial reporting principles for recognition, measurement, presentation and disclosures to apply in relation to participatory ventures (including most of the common structures / products based on Mudaraba and Musharaka). This standard shall be applied in respect of accounting and financial reporting by the investors, the working partners, as well as, the participatory ventures with regard to all such participatory ventures that fall within the scope of this standard, including those with fixed and variable equity / quasi-equity shares. This standard shall be effective for the financial periods beginning or after 1 January 2027.

FAS 52 – Deferred Delivery Sales: Salam and Istisna

AAOIFI has issued FAS 52 on 31 December 2025. This standard prescribes the accounting and financial reporting principles for recognition, measurement, presentation and disclosures related to deferred delivery sales transactions, applicable to the respective buyers and sellers. Such transactions include both, Salam- and Istisna-based deferred delivery sales transactions, but do not include Istisna-based development contracts which are subject of another standard being simultaneously issued. This standard shall be effective for the financial periods beginning or after 1 January 2027.

(b) Basis of consolidation**(i) Subsidiaries**

The consolidated financial statements incorporate the financial statements of the Bank and entities controlled by the Bank (its subsidiaries) up to 31 December each year.

Control of business

The Bank controls a business if, and only if, the Bank has all the following:

- Power over the business;
- Exposure, or rights, to variable returns from the Group's involvement with the business; and
- The ability to use its power over the business to affect the amount of the Bank's returns.

There is a rebuttable presumption that the Bank has the ability to exercise power over (and govern) a business when the Bank:

- Directly, or indirectly through its subsidiaries, holds more than 50% of the voting rights (when either the relevant activities are directed by a vote of the holder of the majority of the voting rights, or a majority of the members of the governing body that directs the relevant activities are appointed by a vote of the holder of the majority of the voting rights); or
- Has the rights to direct the activities of the business.

The Group reassesses whether or not it controls a business if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above. When the Group has less than a majority of the voting rights of an investee, it considers that it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in a business are sufficient to give it power, including:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(b) Basis of consolidation (continued)****(i) Subsidiaries (continued)**

- Agreement with the business's other shareholders or the business itself;
- Rights arising from other contractual arrangements;
- The Bank's voting rights (de facto power). The Bank may have de facto power (resulting in de facto control, if variable returns condition is also met) over a business that gives the Bank the practical ability to direct the financial and operating policies of such business unilaterally including situations when the Bank holds significantly dominant voting rights, such as when there is widely dispersed shareholding patterns, significant dormant shareholding patterns or significant voting rights under management (through off-balance sheet assets under management);
- Potential voting rights held by the Group, other vote holders or other parties; or
- A combination thereof.

Any component of a business funded by the off-balance sheet under management (including restricted investment accounts) are classified as non-controlling interests.

Consolidation

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, the results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between the members of the Group are eliminated on consolidation.

Non-controlling interests in subsidiaries are identified separately from the Group's equity therein. Those interests of non-controlling shareholders that are present ownership interests entitling their holders to a proportionate share of net assets upon liquidation may initially be measured at fair value or at the non-controlling interests' proportionate share of the fair value of the acquiree's identifiable net assets. The choice of measurement is made on an acquisition-by-acquisition basis. Other non-controlling interests are initially measured at fair value. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity.

Profit or loss are attributed to the equity holders of the Parent of the Group and to the non-controlling interests. Profit or loss of the subsidiaries are attributed to the equity holders of the Parent of the Group and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Changes in the Group's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amount of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the equity holders of the Parent of the Group.

When the Group loses control of a subsidiary, the gain or loss on disposal recognised in profit or loss is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), less liabilities of the subsidiary and any non-controlling interests. The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting when applicable, or the cost on initial recognition of an investment in an associate or a joint arrangement.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(b) Basis of consolidation (continued)****(i) Subsidiaries (continued)**

For subsidiaries not in compliance with Shari'a principles, their net profit is excluded from the consolidated statement of income, and their assets and liabilities are separately disclosed under "Other Assets" and "Other Liabilities" in the consolidated statement of financial position.

(ii) Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interest issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value at the acquisition date, except:

- Deferred tax assets or liabilities and assets or liabilities related to employee benefit arrangements;
- Liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree;
- Assets (or disposal groups) that are classified as held for sale.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in consolidated statement of income as a bargain purchase gain.

When the consideration transferred by the Group in a business combination includes a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against goodwill. Measurement period adjustments are adjustments that arise from additional information obtained during the 'measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Other contingent consideration is remeasured to fair value at subsequent reporting dates with changes in fair value recognised in consolidated statement of income.

When a business combination is achieved in stages, the Group's previously held interests (including joint operations) in the acquired entity are remeasured to its acquisition-date fair value and the resulting gain or loss, if any, is recognised in consolidated statement of income.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see above), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amounts recognised as of that date.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(b) Basis of consolidation (continued)****(ii) Business combinations (continued)**

Costs related to the acquisition, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred.

For acquisitions not meeting the definition of a business, the Group allocates the cost between the individual identifiable assets and liabilities. The cost of acquired assets and liabilities is determined by: (a) accounting for financial assets and liabilities at their fair value at the acquisition date; and (b) allocating the remaining balance of the cost of purchasing the assets and liabilities to the individual assets and liabilities, other than financial instruments, based on their relative fair values at the acquisition date.

(iii) Goodwill

Goodwill is initially recognised and measured as set out above.

Goodwill is not amortised but is reviewed for impairment at least annually. The Group applies the following relevant requirements of *"IAS 36 – Impairment of Assets"* in assessing impairment of goodwill.

For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) expected to benefit from the synergies of the combination. Cash-generating units to which goodwill has been allocated are tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognised for goodwill is not reversed in a subsequent period.

On disposal of a cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

(iv) Non-controlling interest

Interests in the equity of subsidiaries not attributable to the parent are reported in consolidated statement of financial position in owners' equity. Profits or losses attributable to non-controlling interests are reported in the consolidated statement of income as income attributable to non-controlling interests. Losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance.

Changes in ownership interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity holders of the Group. For purchases from non-controlling interest, the difference between any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interest are also recorded in equity.

When the Group ceases to have control or significant influence, any retained interest in the entity is remeasured to its fair value, with the change in carrying amount recognised in consolidated statement of income. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint arrangement or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to consolidated statement of income.

If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income is reclassified to consolidated statement of income where appropriate.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(b) Basis of consolidation (continued)****(v) Associates (equity-accounted investees)**

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but not control or joint control over those policies.

The results of associates are incorporated in these financial statements using the equity method of accounting. Under the equity method, an investment in an associate is recognised initially in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate. When the Group's share of losses in an associate exceeds the Group's interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment in an associate, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The requirements of IAS 36 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with IAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with IAS 36 to the extent that the recoverable amount of the investment subsequently increases.

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate. When the Group retains an interest in the former associate and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with FAS 30. The difference between the carrying amount of the associate at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the associate is included in the determination of the gain or loss on disposal of the associate. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate on the same basis as would be required if that associate had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the associate is disposed of.

When the Group reduces its ownership interest in an associate but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

Intergroup gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Intragroup losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. For preparation of these consolidated financial statements, equal accounting policies for similar transactions and other events in similar circumstances are used. Dilution gains and losses in associates are recognised in the consolidated statement of income.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(b) Basis of consolidation (continued)****(iv) Associates (equity-accounted investees) (continued)**

The Group's share of the results of associates is based on financial statements available up to a date not earlier than three months before the date of the consolidated statement of financial position, adjusted to conform to the accounting policies of the Group.

The accounting policies of associates have been changed where necessary to ensure consistency with policies adopted by the Group.

(v) Fund management

The Group manages and administers assets held on behalf of investors. These assets and income arising thereon are excluded from the consolidated statement of financial position and consolidated statement of income, as they are not assets nor income of the Group.

(c) Foreign currency**(i) Foreign currency transactions and balances**

Foreign currency transactions denominated, or that require settlement in a foreign currency are translated into the respective functional currencies of the operations at the spot exchange rates at the transaction dates.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into the functional currency at the spot exchange rate at that date. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated into the functional currency at the spot exchange rate at the date that the fair value was determined. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

Foreign currency differences resulting from the settlement of foreign currency transactions and arising on translation at period end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the consolidated statement of income.

(ii) Foreign operations

The results and financial position of all the Group's entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the reporting date;
- income and expenses for each income statement are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- all resulting exchange differences are recognised in other comprehensive income.

Exchange differences arising from the above process are reported in equity as 'foreign currency translation reserve'.

On consolidation, exchange differences arising from the translation of the net investment in foreign entities, and of borrowings and other currency instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign operation is disposed of, or partially disposed of, such exchange differences are recognised in the consolidated statement of income as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the spot closing rate.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(c) Foreign currency (continued)****(ii) Foreign operations (continued)**

When the settlement of a monetary item receivable from or payable to a foreign operation is neither planned nor likely in the foreseeable future, foreign exchange gains and losses arising from such a monetary item are considered to form part of the net investment in the foreign operation and are recognised in other comprehensive income, and presented in the foreign exchange translation reserve in equity.

(d) Investment securities**(i) Categorization and classification**

FAS 33 – “Investment in sukuk, shares and similar instruments” contains classification and measurement approach for investments in sukuk, shares and similar instruments that reflects the business model in which such investments are managed and the underlying cash flow characteristics.

The Group categorizes each investment as:

- (a) equity-type instruments;
- (b) debt-type instruments (including monetary and non-monetary); and
- (c) other investment instruments.

Debt-type instruments are a type of investment instruments, whereby the transaction structure results in creation of a monetary or non-monetary liability. Equity-type instruments are the instruments that evidence a residual interest in the assets of an entity after deducting all its liabilities and quasi-equity balances, including ordinary equity instruments and such other structured investment instruments that classify as equity instrument. Other investment instruments are such investment instruments which do not meet the definition of either debt-type or equity-type instruments.

Unless irrevocable initial recognition choices provided in the standard are exercised, an institution shall classify investments as subsequently measured at either of (i) amortised cost, (ii) fair value through other comprehensive income or (iii) fair value through income statement, on the basis of both:

- (a) the Group’s business model for managing the investments; and
- (b) the expected cash flow characteristics of the investment in line with the nature of the underlying Islamic finance contracts.

Classification

Investments are classified based on the Group’s assessment of the business model within which the investments are managed, and assessment of whether the contractual terms of the investment represents either a debt-type instrument or other investment instrument having reasonably determinable effective yield.

Investments in debt-type instruments are classified into the following categories: 1) at amortised cost; 2) at fair value through other comprehensive income or 3) at fair value through income statement.

Amortised cost

An investment shall be measured at amortised cost if both of the following conditions are met:

- (a) the investment is held within a business model whose objective is to hold such investment in order to collect expected cash flows till maturity of the instrument; and
- (b) the investment represents either a debt-type instrument or other investment instrument having reasonable determinable effective yield.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(d) Investment securities (continued)****(i) Categorization and classification (continued)***Fair value through other comprehensive income ("FVOCI")*

An investment shall be measured at FVOCI if both of the following conditions are met:

- (a) the investment is held within a business model whose objective is achieved by both collecting expected cash flows and selling the investment; and
- (b) the investment represents a non-monetary debt-type instrument or other investment instrument having reasonable determinable effective yield.

Fair value through income statement ("FVIS")

An investment shall be measured at FVIS unless it is measured at amortised cost or at FVOCI or if irrevocable classification at initial recognition is applied.

Irrevocable classification at initial recognition

The Group may make an irrevocable election to designate a particular investment, at initial recognition, being:

- (a) an equity-type instrument that would otherwise be measured at FVIS, to present subsequent changes in other comprehensive income; and
- (b) a non-monetary debt-type instrument or other investment instrument, as measured at FVIS if doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or correlated liabilities or recognizing the gains and losses on them on different bases.

(ii) Recognition and de-recognition

Investment securities are recognised at the trade date i.e. the date that the Group contracts to purchase or sell the asset, at which date the Group becomes party to the contractual provisions of the instrument.

Investment securities are derecognised when the rights to receive cash flows from the financial assets have expired or where the Group has transferred substantially all risk and rewards of ownership.

(iii) Measurement*Initial recognition*

Investment securities are initially recognised at fair value plus transaction costs, except for transaction costs incurred to acquire investments at FVIS which are charged to consolidated statement of income.

Subsequent measurement

Investments at FVIS are remeasured at fair value at the end of each reporting period and the resultant remeasurement gains or losses is recognised in the consolidated statement of income in the period in which they arise. Subsequent to initial recognition, investments classified at amortised cost are measured at amortised cost using the effective profit method less any impairment allowance. All gains or losses arising from the amortisation process and those arising on de-recognition or impairment of the investments, are recognised in the consolidated statement of income.

*Fair value through other comprehensive income ("FVOCI")**Policy applicable up to the issuance of QCB circular 13/2020*

Investments at FVOCI are remeasured at their fair values at the end of each reporting period and the resultant gain or loss, arising from a change in the fair value of investments are taken through other comprehensive income and presented in a separate fair value reserve within equity. When the investments classified as FVOCI are sold, impaired, collected or otherwise disposed of, the cumulative gain or loss previously recognised in the consolidated statement of changes in equity is transferred to the consolidated statement of income.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(d) Investment securities (continued)****(iii) Measurement (continued)***Policy applicable after the issuance of QCB circular 13/2020*

The Group has adopted QCB Circular 13/2020 dated 29 April 2020 (effective date), which modifies the requirements of FAS 33 "Investments in Sukuk, shares and similar instruments" and FAS 30 "Impairment, credit losses and onerous commitments" and requires Islamic Banks to follow principles of IFRS 9 "Financial Instruments" in respect of equity-type investments carried at FVOCI.

Investments at FVOCI are remeasured at their fair values at the end of each reporting period and the resultant gain or loss, arising from a change in the fair value of investments are taken through other comprehensive income and presented in a separate fair value reserve within equity.

The Group may elect to present in the statement of changes in equity changes in the fair value of certain investments in equity-type instruments that are not held for trading. The election is made on an instrument-by-instrument basis on initial recognition and is irrevocable. Gains and losses on such equity-type instruments are never subsequently reclassified to consolidated statement of income, including on disposal. However, cumulative gains and losses recognised in fair value reserve are transferred to retained earnings on disposal of an investment. Impairment losses (and reversal of impairment losses) are not reported separately from other changes in fair value. Dividends, when representing a return on such investments, continue to be recognised in consolidated statement of income, unless they clearly represent a recovery of part of the cost of the investment, in which case they are recognised in consolidated statement of changes in equity.

For debt type investments classified as FVOCI, the cumulative gain or loss previously recognized in the consolidated statement of changes in equity is transferred to the consolidated statement of income.

(iv) Measurement principles*Amortised cost measurement*

The amortised cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus capital repayments, plus or minus the cumulative amortisation using the effective profit method of any difference between the initial amount recognised and the maturity amount, minus any reduction for impairment. The effective profit rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. The calculation of the effective profit rate includes all fees and points paid or received that are an integral part of the effective profit rate.

Fair value measurement

Fair value is the amount for which an asset could be exchanged, or an obligation settled between well informed and willing parties (seller and buyer) in an arm's length transaction. The Group measures the fair value of quoted investments using the market bid price for that instrument at the close of business on the consolidated statement of financial position date. For investment where there is no quoted market price, a reasonable estimate of the fair value is determined by reference to the current market value of another instrument, which is substantially the same or is based on the assessment of future cash flows. The cash equivalent values are determined by the Group by discounting future cash flows at current profit rates for contracts with similar term and risk characteristics.

(e) Financing assets

Financing assets comprise Shari'a compliant financing provided by the Group with fixed or determinable payments. These include financing provided through Murabaha, Mudaraba, Musharaka, Musawama, Ijarah Muntahia Bittamleek, Istisna'a, Wakala and other modes of Islamic financing. Financing assets are stated at their amortised cost less impairment allowances (if any).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

(e) Financing assets (continued)

Murabaha and Musawama

Murabaha and Musawama receivables are sales on deferred terms. The Group arranges a Murabaha and Musawama transaction by buying a commodity (which represents the object of the Murabaha) and selling it to the Murabeh (a beneficiary) at a margin of profit over cost. The sales price (cost plus the profit margin) is repaid in installments by the Murabeh over the agreed period. Murabaha and Musawama receivables are stated net of deferred profits and impairment allowance (if any).

Based on QCB instructions, the Group applies the rule of binding the purchase orderer to its promise in the Murabaha sale and does not enter into any Murabaha transaction in which the purchase orderer does not undertake to accept the goods if they meet the specifications.

Mudaraba

Mudaraba financing are partnerships in which the Group contributes the capital. These contracts are stated at fair value of consideration given less impairment allowance (if any).

Musharaka

Musharaka financing are partnerships in which the Group contributes the capital and work. These contracts are stated at fair value of consideration given less impairment allowance (if any).

Ijarah Muntahia Bittamleek

Ijarah Muntahia Bittamleek receivables arise from financing structures when the purchase and immediate lease of an asset are at cost plus an agreed profit (in total forming fair value). The amount is settled on a deferred payment basis. Ijarah receivables are carried at the aggregate of the minimum lease payments, less deferred income (in total forming amortised cost) and impairment allowance (if any).

Istisna'a

Istisna'a is a sales contract in which the Group acts as 'al-sani' (a seller) with an 'al-mustasni' (a purchaser) and undertakes to manufacture or otherwise acquire a product based on the specification received from the purchaser, for an agreed upon price.

Istisna'a revenue is the total price agreed between the seller and purchaser including the Group's profit margin. The Group recognises Istisna'a revenue and profit margin based on percentage of completion method by taking in account the difference between total revenue (cash price to purchaser) and Group's estimated cost. The Group recognises anticipated losses on Istisna'a contract as soon as they are anticipated.

Wakala

Wakala contracts represent agency agreements between two parties. One party, the provider of funds (Muwakkil) appoints the other party as an agent (Wakeel) with respect to the investment of the Muwakkil funds in a Shari'a compliant transaction. The Wakeel uses the funds based on the nature of the contract and offer an anticipated return to the Muwakkil. Wakala contracts are stated at amortised cost.

(f) Other financial assets and liabilities

(i) Recognition and initial measurement

The Group initially recognises due from banks, financing assets, customer current accounts, due to banks, and financing liabilities on the date at which they are originated. All other financial assets and liabilities are initially recognised on the trade date at which the Group becomes a party to the contractual provisions of the instrument.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(f) Other financial assets and liabilities (continued)****(i) Recognition and initial measurement (continued)**

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through income statement) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVIS are recognised immediately in consolidated statement of income. Immediately after initial recognition, an expected credit loss (ECL) allowance is recognised for financial assets measured at amortised cost and investments in debt instruments measured at FVOCI, which results in an accounting loss being recognised in consolidated statement of income when an asset is newly originated.

(ii) De-recognition of financial assets and financial liabilities

The Group de-recognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or when it transfers the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all the risks and rewards of ownership and it does not retain control of the financial asset.

Any interest in transferred financial assets that qualify for de-recognition that is created or retained by the Group is recognised as a separate asset or liability in the consolidated statement of financial position. On de-recognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset transferred), and consideration received (including any new asset obtained less any new liability assumed) is recognised in consolidated statement of income.

The Group enters into transactions whereby it transfers assets recognised on its consolidated statement of financial position but retains either all or substantially all of the risks and rewards of the transferred assets or a portion of them. If all or substantially all risks and rewards are retained, then the transferred assets are not derecognised.

In transactions in which the Group neither retains nor transfers substantially all the risks and rewards of ownership of a financial asset and it retains control over the asset, the Group continues to recognise the asset to the extent of its continuing involvement, determined by the extent to which it is exposed to changes in the value of the transferred asset.

In certain transactions the Group retains the obligation to service the transferred financial asset for a fee. The transferred asset is de-recognised if it meets the de-recognition criteria. An asset or liability is recognised for the servicing contract, depending on whether the servicing fee is more than adequate (asset) or is less than adequate (liability) for performing the servicing.

The Group de-recognises a financial liability when its contractual obligations are discharged or cancelled or expire.

(iii) Offsetting

Financial assets and liabilities are offset only when there is a legal or religious enforceable right to set off the recognised amounts and the Group intends to either settle on a net basis, or to realise the asset and settle the liability simultaneously.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

(g) Impairment of financial assets (other than equity-type investments classified as FVOCI)

The Group records an allowance for ECL for all financing assets and other debt financial assets not held at FVIS, together with financing asset commitments and financial guarantee contracts. The allowance is based on the ECL associated with the probability of default in the next twelve months unless there has been a significant increase in credit risk since origination. If the financial asset meets the definition of purchased or originated credit impaired (POCI), the allowance is based on the change in the ECLs over the life of the asset.

The Group applies a three-stage approach to measure expected credit losses (ECL) on financial assets. Assets migrate through the following three stages based on the change in credit quality since initial recognition.

Stage 1: 12 months ECL - not credit impaired

Stage 1 includes financial assets on initial recognition and that do not have a significant increase in credit risk since initial recognition or that have low credit risk (i. local sovereign that carry credit rating of (Aaa) or (Aa) and carry (zero) credit weight in accordance with capital adequacy instructions of the QCB, ii. externally rated debt instruments of rating Aaa or Aa, iii. other financial assets which the Group may classify as such after obtaining QCB's no objection) at the reporting date. For these assets, 12-month ECL are recognised, and profit is calculated on the gross carrying amount of the asset (that is, without deduction for credit allowance). 12-month ECL is the expected credit losses that result from default events that are possible within 12 months after the reporting date. It is not the expected cash shortfalls over the 12-month period but the entire credit loss on an asset weighted by the probability that the loss will occur in the next 12-months.

Stage 2: Lifetime ECL - not credit impaired

Stage 2 includes financial assets that have had a significant increase in credit risk since initial recognition but that do not have objective evidence of impairment. For these assets, lifetime ECL are recognised, but profit is still calculated on the gross carrying amount of the asset. Lifetime ECL are the expected credit losses that result from all possible default events over the expected life of the financial instrument. Expected credit losses are the weighted average credit losses with the life-time probability of default ('PD') as the weight.

Stage 3: Non performing - credit impaired

Stage 3 includes financial assets that have objective evidence of impairment at the reporting date in accordance with the indicators specified in the QCB's instructions. For these assets, lifetime ECL is recognised and treated with the profit calculated on them, according to QCB's instructions as disclosed in the most recent annual financial statements. When transitioning financial assets from stage 2 to stage 3, the percentage of provision made for such assets should not be less than the percentage of provision made before transition.

The Group recognises loss allowances for expected credit loss (ECL) on the following financial instruments that are not measured at FVIS:

- Financial assets that are debt instruments;
- Financial guarantee contracts issued; and
- Financing commitments issued.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(g) Impairment of financial assets (other than equity-type investments classified as FVOCI) (continued)****Stage 3: Non performing - credit impaired (continued)**

The Group measures loss allowances at an amount equal to lifetime ECL, except for the following, for which they are measured as 12-month ECL:

- Debt investment securities that are determined to have low credit risk at the reporting date; and
- Other financial instruments on which credit risk has not increased significantly since their initial recognition

12-month ECL are the portion of ECL that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

Measurement of ECL

ECL are a probability-weighted estimate of credit losses. They are measured as follows:

- Financial assets that are not credit-impaired at the reporting date: as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive);
- Financial assets that are credit-impaired at the reporting date: as the difference between the gross carrying amount and the present value of estimated future cash flows;
- Undrawn financing commitments and Letter of credit: as the present value of the difference between the contractual cash flows that are due to the Group if the commitment is drawn down and the cash flows that the Group expects to receive; and
- Financial guarantee contracts: the expected payments to reimburse the holder less any amounts that the Group expects to recover.

The determination of the FAS 30 provision results from a two-step approach:

Step 1: The facilities will have to be allocated to one of the three impairment stages by determining whether a significant increase in credit risk has occurred since initial recognition or whether the facility has been credit impaired.

Step 2: The expected credit loss is calculated i.e., 12-month expected loss for all facilities in stage 1 and lifetime expected credit loss for all facilities in stage 2. The facilities in stage 3 are covered by specific provisions as per QCB regulations and FAS 30 requirements.

The Group has adopted QCB guidelines on staging and provisioning of certain exposures, which modifies the requirements of FAS 30 "Impairment, credit losses and onerous commitments".

Restructured financial assets

If the terms of a financial asset are renegotiated or modified or an existing financial asset is replaced with a new one due to financial difficulties of the borrower, then an assessment is made of whether the financial asset should be derecognised and ECL are measured as follows:

- If the expected restructuring will not result in derecognition of existing asset, then the expected cash flows arising from the modified financial asset are included in calculating the cash shortfalls from existing asset;
- If the expected restructuring will result in derecognition of existing asset, then the expected fair value of the new asset is treated as the final cash flow from the existing financial asset at the time of its derecognition. The amount is included in calculating the cash shortfalls from the existing financial asset that are discounted from the expected date of derecognition to the reporting date using the original effective profit rate of the existing financial asset.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(g) Impairment of financial assets (other than equity-type investments classified as FVOCI) (continued)****Credit-impaired financial assets**

At each reporting date, the Group assesses whether financial assets carried at amortised cost and debt financial assets carried at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- Significant financial difficulty of the borrower or issuer;
- A breach of contract such as a default or past due event;
- The restructuring of a financing asset by the Group on terms that the Group would not consider otherwise;
- It is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- The disappearance of an active market for a security because of financial difficulties.

Presentation of allowance for ECL in the consolidated statement of financial position

Loss allowances for ECL are presented in the consolidated statement of financial position as follows:

- Financial assets measured at amortised cost: as a deduction from the gross carrying amount of the assets;
- Financing commitments and financial guarantee contracts: generally, as a provision;
- Where a financial instrument includes both a drawn and an undrawn component, and the Group cannot identify the ECL on the financing asset commitment / off balance sheet component separately from those on the drawn component: the Group presents a combined loss allowance for both components. The amount is presented as a deduction from the gross carrying amount of the drawn component. Any excess of the loss allowance over the gross amount of the drawn components is presented as a provision in other liabilities; and
- Debt instruments measured at FVOCI: no loss allowance is recognised in the consolidated statement of financial position because the carrying amount of these assets is their fair value. However, the loss allowance is disclosed and is recognised in the fair value reserve.

Write-off

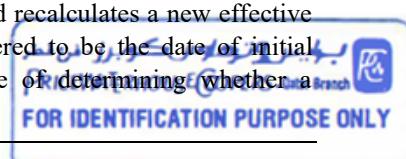

Financing assets and debt securities are written off (either partially or in full) when there is no realistic prospect of recovery. This is generally the case when the Group determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

(h) Impairment of equity-type investments classified as FVOCI

With effect from the issuance of QCB circular 13/2020, equity-type instruments classified as FVOCI are not tested for impairment.

(i) Modification of financial assets and liabilities*Financial Assets*

If the terms of a financial asset are modified, the Group evaluates whether the cash flows of the modified asset are substantially different. If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognised and a new financial asset is recognised at fair value, and recalculates a new effective profit rate for the asset. The date of renegotiation is consequently considered to be the date of initial recognition for impairment calculation purpose, including for the purpose of determining whether a significant increase in credit risk has occurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(i) Modification of financial assets and liabilities (continued)***Financial Assets (continued)*

If the cash flows of the modified asset carried at amortised cost are not substantially different, then the modification does not result in derecognition of the financial asset. In this case, the Group recalculates the gross carrying amount of the financial asset and recognises the amount arising from adjusting the gross carrying amount as a modification gain or loss in the consolidated statement of income. If such a modification is carried out because of financial difficulties of the borrower, then the gain or loss is presented together with impairment losses. In other cases, it is presented as profit.

Financial liabilities

The Group derecognises a financial liability when its terms are modified, and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in the consolidated income statement.

(j) Cash and cash equivalents

Cash and cash equivalents include notes and coins on hand, unrestricted balances held with central banks and highly liquid financial assets with maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value, and are used by the Group in the management of its short-term commitments.

Cash and cash equivalents are carried at amortised cost in the consolidated statement of financial position.

(k) Shari'a-compliant risk management instruments

Shari'a-compliant risk management instruments are measured at fair value on the consolidated statement of financial position.

The Group's Shari'a-compliant risk management instruments include unilateral promise to buy/sell currencies, profit rate and cross currency swaps. After initial recognition at transaction prices, being the best evidence of fair value upon initial recognition, Shari'a-compliant risk management instruments are subsequently measured at fair value. Fair value represents quoted market price or internal pricing models, as appropriate. The resulting gains or losses are included in the consolidated statement of income.

Wa'ad, Khiyar and Tahawwut

Wa'ad (promise) is a unilateral undertaking (constructive obligation) assumed by one party. The unilateral promise is understood to be binding in Shari'a on the individual who makes it, unless a legitimate excuse under Shari'a arises and prevents its fulfilment. Wa'ad may be classified as:

- Binding Wa'ad (promise) – is a Wa'ad which becomes binding on the promisor by virtue of juristic rules if it is pending on a cause and the promisee has incurred costs by reason of the promise, or by virtue of the promisor expressly making the same binding on itself; and
- Non-binding Wa'ad (promise) – is a Wa'ad other than a binding promise.

Khiyar (option) is an option (expressed or implied) that is contained within a sale, Ijarah or other contract, allowing one party to unilaterally nullify or revoke the contract or to unilaterally amend the contract in a manner that the subject matter is materially changed.

Tahawwut (hedging) arrangement – is a mechanism to mitigate the risk of unfavourable future fair value changes or cash flow differentials by way of entering into a Wa'ad or Khiyar (for a stipulated period of time) arrangement or a series thereof.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

(k) Shari'a-compliant risk management instruments (continued)

Derivatives held for risk management purposes and accounting for Tahawwut (hedging) arrangements

Derivatives held for risk management purposes include all derivative assets and liabilities that are not classified as trading assets or liabilities. Derivatives held for risk management purposes are measured at fair value on the consolidated statement of financial position. The Group designates certain derivatives held for risk management as hedging instruments in qualifying Tahawwut (hedging) relationships. The Group accounts for Tahawwut (hedging) relationship when all of the following conditions are met:

- the hedging relationship is adequately documented, identifying the hedging instrument and the hedged item, the nature of the risk being hedged, and how the Group will assess the hedging instruments effectiveness;
- the hedge is expected to be effective in achieving its desired objectives that were originally documented in the risk management strategy for that particular hedging relationship by offsetting changes in fair value or cash flows attributable to the hedged risk;
- exposure to variations in cash flows is probable, in case of cash flow hedges, that may have impact on the consolidated statement of income;
- the effectiveness of the hedge can be reliably measured; and
- the hedge is assessed on an ongoing basis and is determined to be highly effective throughout the financial reporting period.

These hedging relationships are discussed below:

Cash flow hedges – qualifying for hedge accounting

When a derivative is designated as the hedging instrument in a hedge of the variability in cash flows attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction that could affect profit or loss, the effective portion of changes in the fair value of the derivative is recognised in the fair value reserve. The amount recognised in fair value reserve is reclassified to profit or loss as a reclassification adjustment in the same period as the hedged cash flows affect consolidated statement of income. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in consolidated statement of income.

If the hedging derivative expires or is sold, terminated, or exercised, or the hedge no longer meets the criteria for cash flow hedge accounting, or the hedge designation is revoked, then hedge accounting is discontinued prospectively. In a discontinued hedge of a forecast transaction, the cumulative amount recognised in the fair value reserve from the period when the hedge was effective is reclassified from equity to profit or loss as a reclassification adjustment when the forecast transaction occurs and affects profit or loss. If the forecast transaction is no longer expected to occur, then the balance in the fair value reserve is reclassified immediately to the consolidated statement of income as a reclassification adjustment.

Fair value hedges – qualifying for hedge accounting

When a derivative is designated as the hedging instrument in a hedge of the change in fair value of a recognised asset or liability or a firm commitment that could affect profit or loss, changes in the fair value of the derivative are recognised immediately in consolidated statement of income together with changes in the fair value of the hedged item that are attributable to the hedged risk. If the hedging derivative expires or is sold, terminated, or exercised, or the hedge no longer meets the criteria for fair value hedge accounting, or the hedge designation is revoked, then hedge accounting is discontinued prospectively. Any adjustment up to that point to a hedged item, for which the effective profit method is used, is amortised to consolidated statement of income as part of the recalculated effective profit rate of the item over its remaining life.

Hedging derivatives – not qualifying for hedge accounting

When a derivative is held for risk management purposes but, due to the characteristics of the derivative (e.g. where it includes embedded options), it does not qualify for hedge accounting, all changes in its fair value are recognised immediately in consolidated statement of income. Also included in this category are foreign exchange derivatives (such as forward exchange contracts) that are used to hedge foreign currency risks arising between lending and funding activities and interest rate options.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(l) Property and equipment***Recognition and initial measurement*

Items of property and equipment are measured at cost less accumulated depreciation and impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the assets and restoring the site on which they are located. When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

The gain or loss on disposal of an item of property and equipment is determined by comparing the proceeds from disposal with the carrying amount of the item of property and equipment, and is recognised in other income/other expenses in consolidated statement of income.

Depreciation is recognised in the consolidated statement of income on a straight-line basis over the estimated useful lives of each part of an item of property and equipment since this closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset and is based on cost of the asset less its estimated residual value. Land and work-in-progress are not depreciated.

Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

The estimated useful lives for the current and comparative years are as follows:

Buildings	20 - 40 years
Leasehold improvements	the shorter of the useful life (5-10 years) or the lease term
Furniture, fixtures and office equipment	3 - 7 years
Motor vehicles	3 years
Computer equipment	3 - 7 years

Useful lives and residual values are reassessed at each reporting date and adjusted prospectively, if appropriate.

Subsequent costs

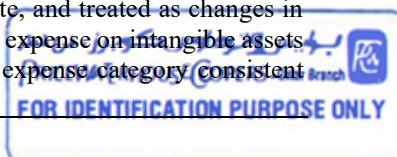

The cost of replacing a component of property and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property and equipment are recognised in consolidated statement of income as incurred.

Repairs and maintenance expenses are charged to the consolidated statement of income when incurred.

(m) Intangible assets

An intangible asset is recognised only when its cost can be measured reliably and it is probable that the expected future economic benefits that are attributable to it will flow to the Group. Intangible assets acquired separately or in a business combination (other than goodwill) are measured on initial recognition at fair value and subsequently at cost less accumulated amortisation and impairment loss.

The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortisation period or method, as appropriate, and treated as changes in accounting estimates and accounted for on a prospective basis. The amortisation expense on intangible assets with finite lives is recognised in the consolidated statement of income in the expense category consistent with the nature of the intangible asset.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(m) Intangible assets (continued)**

An intangible asset is derecognised on disposal or when no future economic benefits are expected from use. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in consolidated statement of income when the asset is derecognised.

Intangible assets with indefinite useful lives are not amortised but are tested for impairment annually either individually or at the cash generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life assessment continues to be supportable. If not, the change in the useful life from indefinite to finite is made on a prospective basis. Goodwill that arises upon the acquisition of subsidiaries is included in intangible assets. Subsequent to initial recognition, goodwill is measured at cost less accumulated impairment losses.

Intangible assets other than goodwill are amortised over their useful lives and carried net of accumulated amortisation and impairment losses.

A summary of the useful lives and amortisation methods of the Group's intangible assets are as follows:

	<i>Goodwill</i>	<i>Customer relationships</i>	<i>Core deposits</i>	<i>License</i>
Useful lives	Indefinite	Finite (8 years)	Finite (10 years)	Finite (5 years)
Amortisation method used	Tested for impairment either individually or at cash generating unit level	Amortised on a straight-line basis over the periods of availability	Amortised on a straight-line basis over the periods of availability	Amortised on a straight-line basis over the periods of availability
Internally generated or acquired	Acquired	Acquired	Acquired	Acquired

(n) Due from banks

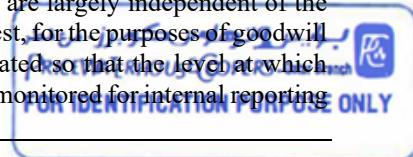

Due from banks are financial assets which are mainly money market placements with fixed or determinable payments and fixed maturities that are not quoted in an active market. Money market placements are not entered into with the intention of immediate or short-term resale. Due from banks are initially measured at cost, being the fair value of the consideration given. Following the initial recognition, due from banks are stated at amortised cost less impairment allowances (if any).

(o) Impairment of non-financial assets

The carrying amounts of the Group's non-financial assets, other than deferred tax assets (where applicable) are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill and intangible assets that have indefinite useful lives or that are not yet available for use, the recoverable amount is estimated each year at the same time. An impairment loss is recognised if the carrying amount of an asset or its Cash Generating Unit ("CGU") exceeds its estimated recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGU. Subject to an operating segment ceiling test, for the purposes of goodwill impairment testing, CGUs to which goodwill has been allocated are aggregated so that the level at which impairment testing is performed reflects the lowest level at which goodwill is monitored for internal reporting purposes.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(o) Impairment of non-financial assets (continued)**

Goodwill acquired in a business combination is allocated to groups of CGUs that are expected to benefit from the synergies of the combination.

The Group's corporate assets do not generate separate cash inflows and are utilised by more than one CGU. Corporate assets are allocated to CGUs on a reasonable and consistent basis and tested for impairment as part of the testing of the CGU to which the corporate asset is allocated.

Impairment losses are recognised in consolidated statement of income. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the CGU (group of CGUs) and then to reduce the carrying amount of the other assets in the CGU (group of CGUs) on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of amortisation, if no impairment loss had been recognised.

(p) Customer current accounts

Balances in customer current accounts do not carry any return and are recognised when received by the Group. The transactions are measured as the amount received by the Group at the time of contracting. At the end of the reporting period, these accounts are measured at amortised cost.

(q) Quasi-equity

Quasi-equity is an element of the financial statements that represents participatory contributions received by an institution on a profit sharing or participation basis. It has:

- primary characteristics of equity i.e., in case of loss (unless negligence / misconduct / breach of contractual terms is proved), the Group is not liable to return the lost funds to the fund providers and the fund providers share the residual interest in the underlying assets or business;
- certain characteristics of a liability i.e., it has a maturity or a put option of redemption / liquidation; and
- certain specific features i.e., the rights of the fund providers are limited only to the underlying assets or business and not on the whole of the institution, as well as, they do not have certain rights associated only with owners' equity.

All contributions of quasi-equity holders are measured by the amount received during the time of contracting. At the end of the financial period, the equity of quasi-equity holders is measured at the amount received plus accrued profit and related reserves less amounts settled.

Quasi-equity holders include participatory investment accounts (unrestricted investment accounts).

Participatory investment accounts

Participatory investment accounts are funds held by the Group, which it can invest at its own discretion. The participatory investment account holders authorises the Group to invest the account holders' funds in a manner which the Group deems appropriate without laying down any restrictions as to where, how and for what purpose the funds should be invested.

Of the total income from investment accounts, the income attributable to account holders is allocated to participatory investment accounts after setting aside provisions and deducting the Group's share of income as Mudarib. The allocation of income is determined by the management of the Group within the allowed profit-sharing limits as per the terms and conditions of the investment accounts.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(r) Distribution of profit between participatory investment account holders and shareholders**

The Group complies with the directives of the QCB as follows:

- Net profit is arrived at after taking into account all income and expenses at the end of the financial year, and is distributed between participatory investment account holders and its equity holders.
- The share of profit of participatory investment account holders is calculated on the basis of their daily deposit balances over the year, after reducing the Group's agreed and declared Mudaraba profit.
- In case of any expense or loss, which arises out of negligence on the part of the Group due to non-compliance with QCB regulations and instructions, then such expenses or loss, shall not be borne by the participatory investment account holders. Such matter is subject to the QCB decision.
- In case the results of the Group at the year-end are net losses, then QCB, being the authority responsible for determining the Group's accountability for these losses, shall decide how these shall be treated without violation to the Islamic Shari'a rules.
- Due to pooling of investment funds with the Group's funds for the purpose of investment, no priority has been given to either party in the appropriation of profit.

All assets are jointly financed by participatory investment account holders and equity holders.

(s) Off-balance-sheet assets under management

Off-balance-sheet assets under management represents funds received by the Group from third parties for investment in specified products as directed by the investment account holders. These assets are managed in a fiduciary capacity and the institution has no entitlement to these assets. Clients bear all of the risks and earn all of the rewards on these investments. Off-balance-sheet assets under management are not included in the consolidated statement of financial position since the Group does not have the right to use or dispose these investments except within the conditions of the contract between the Group and its clients.

(t) Sukuk financing

Sukuk financing represents common shares in the ownership of assets or benefits or services which bears profit. Profits are recognised periodically until maturity. Sukus are recognised at amortised cost. Sukus are disclosed as a separate line in the consolidated financial statements as "Sukuk and debt financing".

(u) Provisions

Provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Provisions are not recognised for future operating losses. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

(v) Employees benefits

Defined contribution plans

The Bank provides for its contribution to the State administered retirement fund for Qatari employees in accordance with the Retirement and Pension Law No. 24 of 2002, and the resulting charge is included within the "Staff pension fund costs" under "Staff costs" in the consolidated statement of income. The Group has no further payment obligations once the contributions have been paid. The contributions are recognised when they are due.

Employees' end of service benefits

The Bank also provides for end of service benefits to its expatriate employees in accordance with the Qatar Labour Law. The provision is calculated based on the period of service for each staff at the year end. This provision is included in other liabilities.

Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(w) Share capital and reserves

Dividends on ordinary shares

Dividends on ordinary shares are recognised in equity in the period in which they are approved by the Bank's equity holders.

(x) Revenue recognition

Murabaha and Musawama

Profit from Murabaha and Musawama transactions is recognised when the income is both contractually determinable and quantifiable at the commencement of the transaction. Such income is recognised on a time-apportioned basis over the period of the transaction. Where the income from a contract is not contractually determinable or quantifiable, it is recognised when the realisation is reasonably certain or when actually realised. Income related to non-performing accounts is excluded from the consolidated statement of income.

Mudaraba

Income on Mudaraba financing is recognised when the right to receive payment is established or on distribution by the Mudarib, whereas losses are charged to the consolidated statement of income on declaration by the Mudarib.

Musharaka

Income on Musharaka financing is recognised when the right to receive payments is established or on distribution.

Ijarah Muntahia Bittamleek

Ijara income is recognised on time-apportioned basis over the lease period. Income related to non-performing accounts is excluded from the consolidated statement of income.

Istisna'a

Revenue and the associated profit margin are recognised in the Group's consolidated statement of income according to the percentage of completion method or completed contract method.

Wakala

Income from Wakala placements is recognised on a time apportioned basis so as to yield a constant periodic rate of return based on the balance outstanding.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(x) Revenue recognition (continued)***Income from asset management services*

Income from asset management services (presented in fee and commission income), including advisory, management and performance fees, is recognised as per contractual terms when the service is provided and income is earned. This is usually when the Group has performed all significant acts in relation to a transaction and it is highly probable that the economic benefits from the transaction will flow to the Group. Significant acts in relation to a transaction are determined based on the terms agreed in the contracts for each transaction. The assessment of whether economic benefits from a transaction will flow to the Group is based on the extent of binding firm commitments received from other parties.

Fees and commission income

Fees and commission income that are integral to the effective profit rate on a financial asset carried at amortised cost are included in the measurement of the effective profit rate of the financial asset. Other fees and commission income, including account servicing fees, sales commission, feasibility study / management, arrangement and syndication fees, are recognised over time as the related services are performed. The performance, as well as the timing of their satisfaction, are identified and determined, at the inception of the contract.

The Bank has generally concluded that it is a principal in its revenue arrangements because it typically controls the services before transferring them to customer.

Dividend income

Dividend income is recognised when the right to receive the dividend is established.

(y) Income tax

Taxes are calculated based on tax laws and regulations in jurisdictions in which the Group operates. A tax provision is made based on an evaluation of the expected tax liability. The Group's operations inside Qatar are not subject to tax, except Al Rayan Investment L.L.C. and Al Rayan Partners L.L.C. whose profits are subject to tax as per the relevant tax regulations.

Tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in the consolidated statement of income except to the extent that it relates to items recognised directly in equity.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries to the extent that it is probable that they will not reverse in the foreseeable future; and
- temporary differences arising on the initial recognition of goodwill.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities against current tax assets, and they relate to taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis, or their tax assets and liabilities will be realised simultaneously.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

(y) Income tax (continued)

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(z) Earnings per share

The Group presents basic and diluted earnings per share ("EPS") data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to equity holders of the Bank by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to equity holders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares.

(aa) Financial guarantees

In the ordinary course of business, the Group gives financial guarantees, consisting of letters of credit, guarantees and acceptances.

Financial guarantees are initially recognised in the consolidated financial statements at fair value, being the premium received on the date the guarantee was given, and the initial fair value is amortised over the life of the financial guarantee. Subsequent to initial recognition, the Group's liability under such guarantees are measured at the higher of the amortised amount and the best estimate of the expenditure required to settle any financial obligation arising at the consolidated statement of financial position date. These estimates are determined based on experience of similar transactions and history of past losses, supplemented by the judgment of Management.

Any increase in the liability relating to guarantees is taken to the consolidated statement of income. The amortisation of the premium received is recognised in the consolidated statement of income under commission and fees income.

(bb) Acceptances

Acceptances arise when the Bank is under an obligation to make payments against documents drawn under letters of credit. Acceptances specify the amount of money, the date and the person to which the payment is due. After acceptance, the instrument becomes an unconditional liability (time draft) of the Bank and is therefore recognised as a financial liability in the consolidated statement of financial position with a corresponding contractual right of reimbursement from the customer recognised as a financial asset.

(cc) Collateral reposessed

The Bank acquires collaterals in settlement of certain financing assets. These collaterals are recognized at net realisable value on the date of acquisition and are classified as "Other assets". Subsequently, the fair value is determined on a periodic basis by independent professional valuers. Fair value adjustments on these collaterals are included in the consolidated statement of income in the period in which these gains or losses arise.

(dd) Contingent liabilities

Contingent liabilities include guarantees, letters of credit, Group's obligations with respect to unilateral promise to buy/sell currencies, profit rate and currency swaps and others. These do not constitute actual assets or liabilities at the consolidated statement of financial position date except for assets and obligations relating to fair value gains or losses on these Shari'a-compliant risk management instruments.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(ee) Segment reporting**

An operating segment is a distinguishable component of the Group:

- that engages in business activities earning income and incurring expenses (including income and expenses relating to transactions with any of the Group's other components);
- whose operating results are regularly reviewed by the Group's decision makers and those charged with governance;
- whose functions are managed by a dedicated segment management; and
- for which discrete financial information is available.

Two or more segments are combined together if they are substantially similar and disclosing their separate results would not add significant value to the users of the financial statements.

(ff) Earnings prohibited by Shari'a

The Group is committed to avoid recognizing any income generated from non-Islamic source. Consequently, all non-Islamic income is credited to a charity account and the Group uses these funds for various social welfare activities.

(gg) Comparatives

Except when a standard or an interpretation permits or requires otherwise, all amounts are reported or disclosed with comparative information.

(hh) Ijarah (FAS 32)

The Group has applied from 1 January 2021 FAS 32 – *Ijarah* which sets out principles for the classification, recognition, measurement, presentation and disclosure of Ijarah-type transactions including their different forms entered into by Islamic financial institutions, in both the capacities of lessor and lessee. The Group adopted the following policies in line with FAS 32 and shall implement any subsequent guidelines or amendments to the standards that may be issued by the QCB.

The Group as lessee***Identifying an Ijarah***

At inception of a contract, the Group assesses whether the contract is, or contains an Ijarah. A contract is or contains an Ijarah if the contract transfers the usufruct (but not control) of an identified asset for a period of time in exchange for an agreed consideration.

Usufruct – is a legally enforceable limited right related to an asset including the two property interests of (i) usus (use), being the right to use or enjoy such asset and (ii) fructus (fruit), being the right to derive profit or benefit from such asset but does not entail risks and rewards incidental to ownership.

Classification and measurement

The Group, in its capacity as either the lessor or the lessee, classifies each of its Ijarah into:

- a. Operating Ijarah;
- b. Ijarah Muntahia Bittamleek with expected transfer of ownership after the end of the Ijarah term – either through a sale or a gift; or
- c. Ijarah Muntahia Bittamleek with gradual transfer of ownership during the Ijarah term (including Diminishing Musharaka Ijarah).

At the Ijarah commencement date, the Group as a lessee recognises a right-of-use (usufruct) asset and a net Ijarah liability (i.e. gross Ijarah liability less deferred Ijarah cost).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

(hh) Ijarah (FAS 32) (continued)

Right-of-use asset*Initial recognition and measurement*

On initial recognition, the lessee measures the right-of-use asset at cost. The cost of the right-of-use asset comprises of:

- a. The prime cost of the right-of-use asset;
- b. Initial direct costs incurred by the lessee; and
- c. Dismantling or decommissioning costs.

The Group determines the prime cost of the right-of-use asset using the liability estimation method. Under this method, the prime cost of the right-of-use asset is determined through estimation based on the fair value of the total consideration paid or payable (i.e. total Ijarah rentals) against the right-of-use asset, under a similar transaction.

Recognition exemptions and simplified accounting for the lessee

The Group as a lessee elects not to apply the requirements of Ijarah recognition and measurement to:

- Short-term Ijarah; and
- Ijarah for which the underlying asset is of low value.

Subsequent measurement

After the commencement date, the Group as a lessee measures the right-of-use asset at cost less accumulated amortisation and impairment losses, adjusted for the effect of any Ijarah modifications or reassessments. The amortizable amount of a right-of-use asset comprises of the right-of-use asset less residual value, if any, and is amortised according to a systematic basis that is reflective of the pattern of utilization of benefits from the right-of-use asset.

The Group amortises the right-of-use asset from the commencement date to the end of the useful economic life of the right-of-use asset, which coincides with the end of the Ijarah term. The Group determines the Ijarah term, including the contractually binding period, as well as reasonably certain optional periods, including:

- a. Extension periods if it is reasonably certain that the Group will exercise that option; and/or
- b. Termination options if it is reasonably certain that the Group will not exercise that option.

The Group carries out impairment assessment in line with the requirements of FAS 30 "Impairment, Credit Losses and Onerous Commitments" to determine whether the right-of-use asset is impaired and to account for any impairment losses identified. The impairment assessment takes into consideration the estimated residual value of the underlying asset. Any related commitments, including promises to purchase the underlying asset, are also considered in line with FAS 30 "Impairment, Credit Losses and Onerous Commitments".

Net Ijarah liability*Initial recognition and measurement*

The net Ijarah liability comprises of the gross Ijarah liability and deferred Ijarah cost (shown as a contra-liability).

The gross Ijarah liability is initially recognised as the gross amount of total Ijarah rental payables for the Ijarah term. The rental payable comprises of the following payments for the right to use the underlying asset during the Ijarah term:

- Fixed Ijarah rentals less any incentives receivable;
- Variable Ijarah rentals including supplementary rentals; and
- Payments of additional rentals, if any, for terminating the Ijarah (if the Ijarah term reflects the lessee exercising the termination option).

Advance rentals paid are netted off with the gross Ijarah liability.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at and for the year ended 31 December 2025

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

(hh) Ijarah (FAS 32) (continued)

Hamish Jiddiyah paid by the Group are recognized as a receivable from the lessor and are not netted-off with the Ijarah liability, unless it is to be adjusted against consideration for transfer of ownership or adjustment against rental liability if agreed upon between the parties, at the time of such event taking place.

Subsequent measurement

After the commencement date, the Group measures the net Ijarah liability by:

- a. Reducing the carrying amount of the gross Ijarah liability to reflect the Ijarah rentals made;
- b. Increasing the net carrying amount to reflect return on the Ijarah liability (amortisation of deferred Ijarah cost); and
- c. Re-measuring the carrying amount in the event of reassessment or Ijarah contract modifications or to reflect revised Ijarah rentals.

The deferred Ijarah cost is amortised to consolidated statement of income over the Ijarah terms on a time-proportionate basis using the effective rate of return method.

Ijarah contract modifications

After the commencement date, the Group accounts for Ijarah contract modifications as follows:

- a. Change in the Ijarah term: re-calculation and adjustment of the right-of-use asset, the Ijarah liability, and the deferred Ijarah cost; or
- b. Change in future Ijarah rentals only: re-calculation of the Ijarah liability and the deferred Ijarah cost only, without impacting the right-of-use asset.

An Ijarah modification is considered as a new Ijarah component to be accounted for as a separate Ijarah for the lessee, if the modification both additionally transfers the right to use of an identifiable underlying asset and the Ijarah rentals are increased corresponding to the additional right-of-use asset. For modifications not meeting any of the conditions stated above, the Group considers the Ijarah as a modified Ijarah as of the effective date and recognises a new Ijarah transaction. The Group recalculates the Ijarah liability, deferred Ijarah cost, and right-of-use asset, and de-recognises the existing Ijarah transaction and balances.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at and for the year ended 31 December 2025

4 FINANCIAL RISK MANAGEMENT

4.1 Introduction and overview

Risk management and structure

Financial instruments cover all financial assets and liabilities of the Group. Financial assets include cash balances, on demand balances and placements with banks, investment securities, financing assets and certain other financial assets. Financial liabilities include customer current accounts, due to banks, sukuk financing, other borrowings and certain other financial liabilities. Financial instruments also include contingent liabilities and commitments included in off-statement of financial position items.

Introduction

Risk is inherent in the Group's activities but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Group's continuing profitability and each individual within the Group is accountable for the risk exposures relating to his or her responsibilities. The Group is exposed to credit risk, market risk, liquidity risk and operational risk, which include trading and non-trading risks.

The independent risk control process does not include business risks such as changes in the environment, technology and industry. They are monitored through the Group's strategic planning process.

Board of Directors

The Board of Directors is responsible for the risk management methodology and approving strategic plans and risk management principles.

Risk management function

The Risk Management Function is responsible for implementing and maintaining risk related procedures to ensure an independent control process. It is also responsible for monitoring compliance with risk principles, policies and limits, across the Group.

Assets and liabilities

The Group's management is responsible for managing the Group's assets and liabilities and the overall financial structure and also responsible for the Group's credit and liquidity risk.

Internal audit

Risk management processes throughout the Group are audited annually by the Internal Audit Department that examines both the adequacy of the procedures and the Group's compliance with the procedures. Internal Audit discusses the results of all assessments with management, and reports its findings and recommendations to the Audit Committee.

Information compiled from all business departments is examined and processed in order to analyse, control and identify early risks. This information is presented and explained to the Board of Directors, risk unit, and the head of each business division.

Frequent reports are given to the senior management and all other relevant members of the Group on the utilisation of market limits, analysis of proprietary investments and liquidity, plus any other risk developments.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at and for the year ended 31 December 2025

4 FINANCIAL RISK MANAGEMENT (continued)

4.2 Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Group attempts to control credit risk by monitoring credit exposures, limiting transactions with specific counterparties and continually assessing the creditworthiness of counterparties.

The Group seeks to manage its credit risk exposure through diversification of lending activities to avoid undue concentrations of risks with individuals or group of customers in specific locations or businesses. It also obtains collaterals, when appropriate. The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are implemented regarding the acceptability of types of collateral and valuation parameters.

The main types of collaterals obtained are as follows:

- For securities financing: cash or securities.
- For commercial financing: mortgages over real estate properties, inventory, cash or securities.
- For retail financing: mortgages over residential properties, vehicles and securities.

Management constantly monitors the market value of collaterals.

The Group also obtains corporate guarantees from parent companies for receivables and balances from financing activities to their subsidiaries.

Details of the composition of the receivables and balances from financing activities to customers are set out in Note 10. Also the details of geographical segments are set out in Note 34.

4.2.1 Credit risk measurement

Risk measurement and reporting systems

The Group's risks are measured using a method which reflects both the expected loss likely to arise in normal circumstances and unexpected losses. The Group also runs worse case scenarios that would arise in the event that extreme events which are unlikely to occur do, in fact, occur.

Monitoring and controlling risks is primarily performed based on limits established by the Group. These limits reflect the business strategy and market environment of the Group as well as the level of risk that the Group is willing to accept, with additional emphasis on selected industries. In addition, the Group monitors and measures the overall risk bearing capacity in relation to the aggregate risk exposure across all risk type activities and the module makes use of probabilities derived from historical experience adjusted to reflect the economic environment.

4.2.2 Risk limit control and mitigation policies

Risk mitigation

As a part of overall risk management, the Group uses swap deals and other instruments to manage exposures from changes in profit rates, foreign currencies, equity risks, credit risks and exposures arising from forecast transactions.

Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Group's performance to developments affecting a particular industry or geographical location.

In order to avoid excessive concentrations of risk, the Group's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio, with limits set on geographic and industry sector exposures. Identified concentrations of credit risks are controlled and managed accordingly.

4 FINANCIAL RISK MANAGEMENT (continued)

4.2 Credit risk (continued)

4.2.3 Maximum exposure to credit risk before collateral held or other credit enhancements

	2025	2024
Credit risk exposures relating to financial assets recorded on the consolidated statement of financial position are as follows:		
Cash and balances with central banks (excluding cash on hand)	5,409,307	5,279,274
Due from banks	4,816,232	5,164,680
Financing assets	<u>118,188,326</u>	110,039,563
Investment securities - debt	44,947,379	42,926,694
Other assets ¹	<u>3,220,540</u>	3,379,446
	<u>176,581,784</u>	<u>166,789,657</u>
Other credit risk exposures are as follows:		
Unutilised credit facilities	3,465,169	5,544,378
Guarantees	<u>10,394,911</u>	9,115,955
Letters of credit	1,184,732	1,105,526
Contingent liabilities of a non-Shari'a-compliant subsidiary (Note 33a)	<u>442,970</u>	446,160
	<u>15,487,782</u>	<u>16,212,019</u>

¹ Includes assets of a non-Shari'a-compliant subsidiary

The above tables represents a worse-case scenario of credit risk exposure to the Group, without taking account of any collateral held or other credit enhancements attached. For assets recorded on the consolidated statement of financial position, the exposures set out above are based on net carrying amounts as reported on the consolidated statement of financial position.

Total	<u>192,069,566</u>	<u>183,001,676</u>

4.2.5 Credit quality

The credit quality of financial assets is managed by the Group using internal and external credit risk ratings. The Group follows an internal obligor risk rating ("ORR") mechanism for grading relationships across its credit portfolio. The Group utilises a ten-scale credit rating system with positive and negative modifiers, giving a total scale range of 22, of which 19 (with positive and negative modifiers) relate to performing and three to non-performing. Within performing, ORR 1 to 4- represents investment grade, ORR 5+ to 7- represents sub-investment grade, of which 7+ to 7- represents watch list. ORR 8 to 10 represents sub-standard, doubtful and loss respectively. All credits are assigned a rating in accordance with the defined criteria. The Group endeavors continuously to improve upon the internal credit risk rating methodologies and credit risk management policies and practices to reflect the true underlying credit risk of the portfolio and the credit culture in the Group. All lending relationships are reviewed at least once in a year and more frequently in the case of non-performing assets.

4.2.6 Credit quality assessments

The table below provides an analysis of counterparties by rating grades and credit quality of the Group's credit risk profile. This assessment is based on the alignment of internal credit ratings with external rating agency scales.

Rating grade	Financing assets	Due from banks and central banks	Debt type investments	Other exposures subject to credit risk
AAA to AA-	59,842,770	6,710,677	39,367,581	3,284,898
A+ to A-	10,999,775	2,130,659	4,017,863	4,556,688
BBB+ to BBB-	11,688,360	84,750	536,375	2,339,385
BB+ to B-	18,199,003	940,172	940,204	3,003,947
Unrated	22,898,043	361,455	147,500	1,865,831
Totals as of 31 December				
2025	123,627,951	10,227,713	45,009,523	15,050,749
Rating grade	Financing assets	Due from banks and central banks	Debt type investments	Other exposures subject to credit risk

4.2.7 Collateral

The Group seeks to use collateral, where possible, to mitigate its credit risks on financial assets. The collateral comes in various forms, such as cash, securities, letters of credit/guarantees, real estate, inventories and other non-financial assets. Collateral, unless repossessed, is not recorded in the Group's consolidated statement of financial position. Cash flows expected from credit enhancements which are not required to be recognized separately by the applicable standards and which are considered integral to the contractual terms of a debt instrument which is subject to ECL are included in the measurement of those ECL. On this basis, the fair value of collateral affects the calculation of ECL. To the extent possible, the Group uses active market data for valuing financial assets held as collateral. Other financial assets which do not have readily determinable market values are valued using models. Non-financial collateral, such as real estate, is valued based on data provided by third parties such as mortgage brokers, or based on housing price indices.

In its normal course of business, the Group engages external agents to recover funds from the repossessed assets, generally at auctions, to settle outstanding debt. Any surplus funds are returned to the customers/obligors.

The fair value of the collateral held against credit-impaired financing assets as at 31 December 2025 is QAR 2,283 million (2024: QAR 2,963 million).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at and for the year ended 31 December 2025

4 FINANCIAL RISK MANAGEMENT (continued)

4.2 Credit risk (continued)

4.2.8 Renegotiated financing assets

Rescheduled activities include extended payment arrangements, approved external management plans, modification and deferral of payments, in accordance with Shari'ah principles. Restructuring policies and practices are based on indicators or criteria that, in the judgement of local management, indicate that payment will most likely continue. These policies are kept under continuous review. Following restructuring, a previously overdue customer account is reset to a normal status and managed together with other similar accounts as non-impaired.

4.2.9 Write-off policy

The Group writes off a financing asset or an investment in debt-type security balance, and any related allowances for impairment losses, when Group determines that the financing asset or security is uncollectible and after QCB approval is obtained.

This determination is made after considering information such as the occurrence of significant changes in the borrower's / issuer's financial position such that the borrower / issuer can no longer pay the obligation, or that proceeds from collateral will not be sufficient to pay back the entire exposure. For smaller balance standardised financing assets, write-off decisions generally are based on a product-specific past due status. The contractual amount of financial assets written off during the year, subject to enforcement activity as at 31 December 2025 was QAR 176,026 thousand (2024: QAR 683,113 thousand).

4.2.10 Inputs, assumptions and techniques used for estimating impairment

Significant increase in credit risk

When determining whether the risk of default on a financial instrument has increased significantly since initial recognition, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and expert credit assessment and including forward-looking information.

In determining whether credit risk has increased significantly since initial recognition following criteria's are considered:

- i. Two notches down for rating from Aaa to Baa or one notch down for ratings from Ba to Ca;
- ii. Facilities restructured during previous twelve months; and
- iii. Contractual payments overdue by more than 60 days as at the reporting date.

Credit risk grades

Credit risk grades are defined using qualitative and quantitative factors that are indicative of risk of default. These factors vary depending on the nature of the exposure and the type of borrower. Exposures are subject to ongoing monitoring, which may result in an exposure being moved to a different credit risk grade.

Generating the term structure of Probability of Default (PD)

The Group employs Moody's Credit Lens to analyse the rating data collected and generate estimates of PD of exposures and how these are expected to change as a result of the passage of time. This analysis includes the identification and calibration of relationships between realized default rates and observed macroeconomic factors, across various geographies in which the Group has taken exposures.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

4 FINANCIAL RISK MANAGEMENT (continued)**4.2 Credit risk (continued)****4.2.10 Inputs, assumptions and techniques used for estimating impairment (continued)***Renegotiated financing assets*

The contractual terms of a financing asset may be modified for a number of reasons, including changing market conditions, customer retention and other factors not related to a current or potential credit deterioration of the customer. An existing financing asset whose terms have been modified may be derecognised and the renegotiated financing asset recognised as a new financing asset at fair value. Where possible, the Group seeks to restructure financing assets rather than to take possession of collateral, if available. This may involve extending the payment arrangements and documenting the agreement of new financing asset conditions. Management continuously reviews renegotiated financing assets to ensure that all criteria are met and that future payments are likely to occur.

The accounts which are restructured due to credit reasons in past 12 months will be classified under Stage 2.

Definition of default

The Group considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or
- the borrower is past due more than 90 days on any material credit obligation to the Group; or
- the borrower is rated 8, 9 or 10.

In assessing whether a borrower is in default, the Group also considers indicators that are:

- quantitative – e.g. overdue status and non-payment on another obligation of the same issuer to the Group; and
- based on data developed internally and obtained from external sources.

Inputs into the assessment of whether a financial instrument is in default and their significance may vary over time to reflect changes in circumstances. The definition of default largely aligns with that applied by the Group for regulatory capital purposes.

Incorporation of forward-looking information

The Group employs statistical models to incorporate macro-economic factors on historical default rates. In case none of the above macro – economic parameters are statistically significant or the results of forecasted PD's are too much deviated from the present forecast of the economic conditions, qualitative PD overlay shall be used by management after analyzing the portfolio as per the diagnostic tool.

Incorporating forward looking information increases the level of judgement as to how changes in these macroeconomic factors will affect the Expected Credit Loss (ECL) applicable to the stage 1 and stage 2 exposures which are considered as performing. The methodologies and assumptions involved, including any forecasts of future economic conditions, are reviewed periodically.

Measurement of ECL

The key inputs into the measurement of ECL are the term structure of the following variables:

- Probability of Default (PD);
- Loss Given Default (LGD);
- Exposure at Default (EAD).

These parameters are generally derived from internally developed statistical models and other historical data. They are adjusted to reflect forward-looking information as described above.

PD estimates are estimates at a certain date, which are calculated based on statistical rating models. These statistical models are primarily based on internally compiled data comprising both quantitative and qualitative factors and are supplemented by external credit assessment data where available.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at and for the year ended 31 December 2025

4 FINANCIAL RISK MANAGEMENT (continued)

4.2 Credit risk (continued)

4.2.10 Inputs, assumptions and techniques used for estimating impairment (continued)

Measurement of ECL (continued)

LGD is the magnitude of the likely loss if there is a default. The Group estimates LGD parameters based on the history of recovery rates of claims against defaulted counterparties. The LGD models consider the forecasted collateral value and recovery costs of any collateral that is integral to the financial asset considering the regulatory haircut.

LGD estimation includes:

- 1) Cure Rate: Defined as the ratio of accounts which have fallen to default and have managed to move backward to the performing accounts.
- 2) Recovery Rate: Defined as the ratio of liquidation value to market value of the underlying collateral at the time of default would also account for expected recovery rate from a general claim on the individual's assets for the unsecured portion of the exposure.
- 3) Discounting Rate: Defined as the opportunity cost of the recovery value not being realized on the day of default adjusted for time value.

EAD represents the expected exposure in the event of a default. The Group derives the EAD from the current exposure to the counterparty and potential changes to the current amount allowed under the contract including amortisation. The EAD of a financial asset is its gross carrying amount.

For lending commitments and financial guarantees, the EAD includes the amount drawn, as well as potential future amounts that may be drawn under the contract, which are estimated based on historical observations and forward-looking forecasts.

Where modelling of a parameter is carried out on a collective basis, the financial instruments are grouped on the basis of shared risk characteristics that include:

- credit risk grading's;
- product type; and
- geographic location of the borrower.

The groupings are subject to regular review to ensure that exposures within a particular group remain appropriately homogeneous.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at and for the year ended 31 December 2025

4 FINANCIAL RISK MANAGEMENT (continued)

4.2 Credit risk (continued)

4.2.11 Credit Risk Measurement

The estimation of credit exposure for risk management purposes is complex and requires the use of models, as the exposure varies with changes in market conditions, expected cash flows and the passage of time. The assessment of credit risk of a portfolio of assets requires further estimations as to the likelihood of defaults occurring, of the associated loss ratios and of default correlations between counterparties. The Group measures credit risk using Probability of Default (PD), Exposure at Default (EAD) and Loss Given Default (LGD).

4.2.12 Credit risk grading

The Group uses internal credit risk grading that reflect its assessment of the probability of default of individual counterparties. The Group uses internal rating models tailored to the various categories of counterparty. The credit grades are calibrated such that the risk of default increases exponentially at each higher risk grade.

4.3 Market risk

The Group takes on exposure to market risks, which is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risks arise from open positions in profit rate, currency, and equity products, all of which are exposed to general and specific market movements and changes in the level of volatility of market rates or prices such as profit rates, credit spreads, foreign exchange rates and equity prices. The market risks arising from trading and non-trading activities are concentrated in Group Treasury and monitored by the Group's Market Risk Department on daily basis. Regular reports are submitted to the Group Asset, Liability and Capital Management Committee ("GALCCO") and Group Compliance and Risk Committee of the Board ("CRC").

4.3.1 Management of market risk

Overall authority for market risk is vested in GALCCO. Group Market Risk Department is responsible for the development of detailed market risk management policies (subject to review and approval by GALCCO/Board of Directors) and for the day-to-day management of all market risks. The main objective of the Market Risk Management is identification, classification, and management of market risks in a prudent way to ensure safeguarding interests of all shareholders.

The Group views market risk management as a core competency and its purpose is not to neutralize market risks, but rather maximize risk/return tradeoffs within clearly defined limits. The existence of market risk requires the measurement of the magnitude of the exposure. This measure is an essential precursor to the management of the risk that takes the form of either reducing the exposure through hedging or maintaining sufficient capital to protect the Group from the risk of operational capacity impairment.

4.3.2 Exposure to profit rate risk

The principal risk to which Bank portfolios are exposed is the risk of loss from fluctuations in the future cash flows or fair values of financial instruments because of a change in market profit rates. Profit rate risk is managed principally through monitoring profit rate gaps and by having pre-approved limits for repricing bands. GALCCO is the monitoring body for compliance with these limits and is assisted by Group Market Risk in its day-to-day monitoring activities.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at and for the year ended 31 December 2025

4 FINANCIAL RISK MANAGEMENT (continued)

4.3 Market risk (continued)

4.3.2 Exposure to profit rate risk (continued)

Sensitivity analysis

The management of profit rate risk against profit rate gap limits is supplemented by monitoring the sensitivity of the Group's financial assets and liabilities to various standard and non-standard profit rate scenarios. Standard scenarios that are considered include a 100 basis point (bp) parallel fall or rise in all yield curves. An analysis of the Group's sensitivity to an increase or decrease in market profit rates, assuming no asymmetrical movement in yield curves and a constant financial position, is as follows:

		100 bp parallel increase	100 bp parallel decrease
Sensitivity of net profit			
2025			
As at 31 December		58,721	(58,721)
2024			
As at 31 December		68,414	(68,414)

Overall profit rate risk positions are managed by Group Central Treasury, which uses financial investments, advances to banks, deposits from banks and Shari'a-compliant risk management instruments to manage the overall position arising from the Group's activities.

4.3.3 Exposure to other market risks

Foreign currency transactions

Currency risk is the risk that the value of a financial instrument will fluctuate due to a change in foreign exchange rates. The Group is exposed to the risk from fluctuation in prevailing foreign currency exchange rates on its financial position.

	2025	2024
Net foreign currency exposure:		
EUR	(248)	(1,229)
GBP	(10)	607
Others	101,611	33,451

The table above does not include currencies that are pegged against the USD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at and for the year ended 31 December 2025

4 FINANCIAL RISK MANAGEMENT (continued)

4.3 Market risk (continued)

4.3.3 Exposure to other market risks (continued)

The table below indicates the effect of a reasonably possible movement of the currency rate against the QAR on the consolidated statement of income, with all other variables held constant:

	<i>Increase / (decrease) in profit or loss 2025</i>	<i>2024</i>
5% increase / (decrease) in currency exchange rate		
EUR	(12)	(61)
GBP	-	30
Others	5,081	1,673

The table above does not include currencies that are pegged against the QAR.

Equity price risk

Equity price risk is the risk that the fair value of equities decreases as a result of changes in the level of equity indices and individual stocks. The equity price risk exposure arises from equity securities classified as investments at FVOCI.

The Group is also exposed to equity price risk and the sensitivity analysis thereof is as follows:

	<i>2025</i>	<i>2024</i>
5% increase / (decrease) in Qatar Stock Exchange		
Increase / (decrease) in equity	8,214	8,430

The above analysis has been prepared on the assumption that all other variables such as profit rate, foreign exchange rate, etc are held constant and is based on historical correlation of the equity securities to the relevant index. Actual movement may be different from the one stated above.

4.4 Liquidity risk

Liquidity risk is the risk that the Group is unable to meet its obligations when they fall due as a result of e.g. customer deposits being withdrawn, cash requirements from contractual commitments, or other cash outflows, such as debt maturities or margin calls for Shari'a-compliant risk management instruments etc. Such outflows would deplete available cash resources for client financing, trading activities and investments. In extreme circumstances, lack of liquidity could result in reductions in the consolidated statement of financial position and sales of assets, or potentially an inability to fulfil financing commitments. The risk that the Group will be unable to do so is inherent in all banking operations and can be affected by a range of institution-specific and market-wide events including, but not limited to, credit events, merger and acquisition activity, systemic shocks and natural disasters.

4.4.1 Management of liquidity risk

The Group maintains a portfolio of high-quality liquid assets, largely made up of QCB Sukuk, short-term liquid trading investments, and inter-bank placements in addition to maintaining the statutory reserves with QCB and other regulators. The Market Risk Department monitors the liquidity risk of the Bank on daily basis and is responsible for the development of detailed liquidity risk management policies (subject to review and approval by GALCCO/Board of Directors).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

4 FINANCIAL RISK MANAGEMENT (continued)

4.4 Liquidity risk (continued)

4.4.2 Maturity analysis

The following table sets out the maturity profile of the Group's assets and liabilities. The contractual maturities of assets and liabilities have been determined on the basis of the remaining period as at 31 December to the contractual maturity date and do not take account of the effective maturities as indicated by the Group's deposit retention history and the availability of liquid funds. Management monitors the maturity profile to ensure that adequate liquidity is maintained.

4.4 Liquidity risk (continued)

4.4.3 Maturity analysis (Financial liabilities and Shari'a-compliant risk management instruments)

The table below summarises the maturity profile of the Group's financial liabilities based on remaining contractual undiscounted repayment obligations. Repayments which are subject to notice are treated as if notice were to be given immediately. However, the Group expects that many customers will not request repayment on the earliest date the Group could be required to pay.

The Group maintains a portfolio of highly marketable, diverse and liquid assets in the event of an unforeseen interruption to cash flow. The Group maintains statutory reserves with QCB. Liquidity is assessed and managed using a variety of stressed scenarios applicable to the Group.

4 FINANCIAL RISK MANAGEMENT (continued)

4.5 Operational risk

Operational risk is the risk of direct or indirect loss resulting from inadequate or failed internal processes, human behaviour, systems or from external events and other risks having an operational risk impact which includes but is not limited to internal process risk, fraud risk, legal risk, regulatory risk, and external events risk. The Group seeks to minimise actual or potential losses from operational risk failure through a framework of policies and procedures that identify, assess, control, manage and report those risks. Operational risks are managed at Group level through a Board approved operational risk management framework in accordance with QCB instructions and Basel III guidelines. This Operational Risk Management Framework layout the foundation for the following:

- Highlights the Group's commitment to improve its capability to manage risks.
- Defines the Group's overall strategy and approach to risk and risk management.
- Establish the Group's risk language and risk appetite.
- Articulates clearly defined roles and responsibilities of the Board, management committees, business unit heads and employees.

Risk governance

The responsibility for the overall risk management framework lies with the Board of Directors. The Board is responsible for setting the Group's strategy and risk appetite, ensuring risk management is appropriate and functioning. To enable the Board to carry out its objectives, it has delegated authority for risk management activities, as well as governance and oversight of those activities, to a number of Board and executive management level risk committees.

In evaluating and responding to risk, the Operational Risk unit operates a three line of defense model. The first line of defense starts with business and support units who are responsible for managing operational risks within their respective functional areas. They operate within the Bank's operational risk management framework and ensure that risk is being pro-actively identified, monitored, reported and managed within their scope of work. Risk and compliance acts as second line of defense in providing risk management expertise, and challenges managers and staff in their performance of risk management activities through independent reviews, monitoring and testing. While internal and sharia audit serves as third line of defense responsible for independently reviewing the effectiveness of the risk management structure and internal controls through periodic audits.

Risk Management

The Operational Risk unit follows a five-step phase in managing risk consisting of risk planning, risk identification, risk assessment, risk mitigation and risk monitoring. Risk planning involves understanding the objectives of management and each business unit and designs risk management approach in order to address risks properly. Following risk planning, risks are identified through various methods such as risk workshops, incident reporting, policy review, risk control and self-assessment, findings from auditors, customer complaints and documents the risks that could keep the Group from reaching its objectives.

When identifying risks, the risks are classified based on Basel III categories, are further analysed for root cause and reported in the key risk indicators. Risks are evaluated and assessed by determining the criticality of each risks according to its likelihood (the extent on how likely the risk will happen) and impact. These risks are reduced to an acceptably low level by designing responses for each. This consists of defining the controls for those risks that we have identified, seeking to reduce the likelihood of their occurrence or at least reduce the impacts they may cause. Through the risk monitoring phase of the operational risk management process, the current risk level and the effectiveness of the risk management functions are monitored. Several available tools are used by Operational Risk unit to assist it in monitoring risks. These tools include risk control and self-assessments, incident management & loss recording, key risk indicator management, new product approval, policy and procedures review and training and awareness to build and promote risk awareness culture.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at and for the year ended 31 December 2025

4 FINANCIAL RISK MANAGEMENT (continued)

4.5 Operational risk (continued)

Risk Management (continued)

Risk indicators, both qualitative and quantitative, as well as limits, are established to best monitor the operational risks through the business lines. For facilitating effective operational risk management, the Group utilizes a comprehensive operational risk management software consisting of several modules such as incident management, risk indicators, risk and control self-assessment and action plan tracker. The risk management software enables the Bank to build best practice by creating structured and automated risk management process, provide better management of risks and loss incidents, automate task deadline control and escalation process, deliver better reporting facility, comply with Basel III requirements and maintain comprehensive documentation of risks.

The Group has also recognized the need for having robust insurance policies to mitigate risks associated to the Bank's services such as but not limited to infidelity, forgery & alterations, cybercrime and damage to property.

Other risk functions, methodologies and tools like fraud unit, business resilience and continuity management program, cybersecurity and vendor risk assessments are also implemented by the Group to support the Operational Risk unit in risk management.

Risk reporting

In accordance with Qatar Central Bank's instructions, the Group has adopted the standardised approach of computing capital charge for Operational Risk.

Based on the monitoring and metrics used for each risk category defined in the risk appetite policy, the Operational Risk unit reports key risk indicators to the Group Risk Committee on a monthly basis and to the Group Compliance and Risk Committee on quarterly basis.

4.6 Capital management

Regulatory capital

The Group's policy is to maintain a strong capital base so as to ensure investor, creditor and market confidence and to sustain future development of the business. The impact of the level of capital on equity holders' return is also recognised and the Group recognises the need to maintain a balance between the higher returns that might be possible with greater gearing and the advantages and security afforded by a sound capital position.

The Group and its individually regulated operations have complied with all externally imposed capital requirements throughout the year. The capital adequacy ratio of the Group is calculated in accordance with the Basel III Committee guidelines as adopted by the QCB.

Pursuant to the QCB Circular No. 33/2022 and with effective date of 1 January 2024, the Group adopted during the year the revised Basel III Framework and the Islamic Financial Services Board ("IFSB") 23 Standard in calculating its capital adequacy ratio.

5 USE OF ESTIMATES AND JUDGMENTS

Key sources of estimation uncertainty

The Group makes estimates and assumptions that affect the reported amounts of assets and liabilities. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

(i) *Impairment losses on financial assets:*

The measurement of impairment losses under FAS 30 across all categories of financial assets in scope requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk.

These estimates are driven by a number of factors, changes in which can result in different levels of allowances. The Group's ECL calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include:

- The Group's internal credit grading model, which assigns PDs to the individual grades;
- The Group's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a lifetime ECL basis and the qualitative assessment;
- The segmentation of financial assets when their ECL is assessed on a collective basis;
- Development of ECL models, including the various formulas and the choice of inputs;
- Determination of associations between macroeconomic scenarios and, economic inputs, such as unemployment levels and collateral values, and the effect on PDs, EADs and LGDs; and
- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models.

It has been the Group's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

Detailed information about the judgements and estimates made by the Group in the above areas is set out in Note 4.2.10 "Inputs, assumptions and techniques used for estimating impairment".

(ii) *Impairment of non-financial assets*

The carrying amounts of the non-financial assets are reviewed at least on an annual basis to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit (CGU), including the goodwill, exceeds its recoverable amount. The recoverable amount of an asset or cash-generating unit is the greater of its value in use (VIU) and its fair value less costs of disposal (FVL COD).

The carrying amount of a CGU is derived using a capital allocation model where the Group's core equity capital is allocated to the CGUs. The Group determines the recoverable amounts of its CGUs based on VIU calculations, which reflect the specifics of the banking business and its regulatory environment. These calculations employ a discounted cash flow (DCF) model, by using cash flow projections based on financial budgets approved by management covering a five-year period.

The Group's VIU model for the CGUs includes significant judgement and assumptions relating to cashflow projections, terminal growth rate and discount rate, and is highly sensitive to the changes in these assumptions. The assumptions used for VIU calculation is disclosed in Note 14.

5 USE OF ESTIMATES AND JUDGMENTS (continued)

Key sources of estimation uncertainty (continued)

(iii) *Useful life of intangible assets*

The useful lives of intangible assets are assessed as either finite or indefinite. Intangible assets carried on the reporting date that have a finite useful life are disclosed in Note 14.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the consolidated statement of income in the expense category that is consistent with the function of the intangible assets.

(iv) *Determining fair values*

The determination of fair value for financial assets and liabilities for which there is no observable market price requires the use of valuation techniques as described in significant accounting policies (financial instruments that trade infrequently and have little price transparency, fair value is less objective, and requires varying degrees of judgement depending on liquidity, concentration, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument).

(v) *Pillar Two Global Minimum Tax*

The Organisation for Economic Co-operation and Development (“OECD”)'s Pillar Two framework introduces a global minimum tax regime that is complex and subject to significant judgement. Management has exercised judgement in assessing the extent to which the Bank is impacted by these rules, including evaluating whether the Bank falls within the scope of the legislation, identifying relevant constituent entities, and determining the appropriate approach to the calculation of effective tax rates and the availability of applicable exemptions or transitional reliefs. Based on the Group's impact assessment, it may qualify for certain reliefs and may not be required to pay additional taxes in the current year. However, the detailed requirements and conditions for such reliefs, including a transitional DMTT exclusion for early-phase international activity, have not yet been enacted as of the date of approval of these consolidated financial statements.

The application of Pillar Two is dependent on the enactment and implementation of local legislation in the jurisdictions in which the Bank operates, together with ongoing developments in administrative guidance. As a result, there is inherent uncertainty in the assumptions and estimates applied. Management will continue to monitor legislative developments and guidance and will update its assessment and related disclosures as further clarity becomes available.

6 OPERATING SEGMENTS

The Group has five reportable segments, as described below, which are the Group's strategic divisions. The strategic divisions offer different products and services, and are managed separately based on the Group's management and internal reporting structure. For each of the strategic divisions, the Group Executive Management Committee reviews internal reports periodically. The following summary describes the operations in each of the Group's reportable segments.

- Corporate Banking provides an extensive range of Islamic funded and non-funded credit facilities, deposit services, investment advisory, currency exchange facilities, profit rate swaps, financing syndication and other services to Corporate, Commercial and Multinational Customers.
- Retail Banking provides investment accounts services, credit card and Islamic financing to retail and individual customers.
- Treasury and Financial Institutions undertake the Group's funding and centralised risk management activities through borrowings, sukuk and debt financing, use of Shari'a compliant instruments for risk management purposes and investing in liquid assets such as short-term placements and corporate and government debt securities.
- Asset Management performs the following functions: (a) provide customised investment solutions (with expertise across equities & fixed income investments) to institutional and High Net Worth investors in line with investors' specific needs and risk parameters, (b) manage mutual funds and exchange traded fund, and (c) provide financial and strategic advisory services.
- International Operations includes financing assets, deposits and other products and services with corporate and individual customers in the Group's international locations.

Unallocated assets, liabilities, revenues and expenses are related to some central functions and non-core business operations, like common property & equipment, cash functions, development projects related payables etc.

Information regarding the results, assets and liabilities of each reportable segment is included below. Performance is measured based on segment profit before tax, as included in the internal management reports that are reviewed by the management. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

(i) *Valuation of financial instruments*

The Group's accounting policy on fair value measurements is discussed in the significant accounting policies section. The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements.

- Level 1: Quoted market price (unadjusted) in an active market for an identical instrument.
- Level 2: Valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.
- Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
 As at and for the year ended 31 December 2025

7 FAIR VALUE AND CLASSIFICATION OF FINANCIAL INSTRUMENTS (continued)

(i) *Valuation of financial instruments (continued)*

Fair values of financial assets and financial liabilities that are traded in active markets are based on quoted market prices or dealer price quotations. For all other financial instruments, the Group determines fair values using valuation techniques.

Valuation techniques include net present value and discounted cash flow models, comparison to similar instruments for which market observable prices exist. Assumptions and inputs used in valuation techniques include risk-free and benchmark profit rates, credit spreads and other premia used in estimating discount rates, bond and equity prices, foreign currency exchange rates, equity and equity index prices and expected price volatilities and correlations. The objective of valuation techniques is to arrive at a fair value determination that reflects the price of the financial instrument at the reporting date, which would have been determined by market participants acting at arm's length.

(ii) *Financial asset and liability classification*

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy:

	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Total</i>
2025				
Financial assets				
Shari'a-compliant risk management instruments	-	298,459	-	298,459
Investment securities	962,861	189,260	-	1,152,121
	962,861	487,719	-	1,450,580
Financial liabilities				
Shari'a-compliant risk management instruments	-	83,700	-	83,700
	-	83,700	-	83,700
	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Total</i>
2024				
Financial assets				
Shari'a-compliant risk management instruments	-	371,095	-	371,095
Investment securities	641,369	199,160	-	840,529
Assets held by non-Shari'a-compliant subsidiary	72,714	-	-	72,714
	714,083	570,255	-	1,284,338
Financial liabilities				
Shari'a-compliant risk management instruments	-	353,645	-	353,645
	-	353,645	-	353,645

The fair values of financial assets and financial liabilities carried at amortised cost approximate the carrying value, hence, not included in the fair value hierarchy table, except for certain investment securities for which the fair value amounts to QAR 45,045 million (2024: QAR 42,832 million) which is derived using Levels 1 and 2 fair value hierarchies.

During the reporting periods 31 December 2025 and 2024, there were no transfers among Levels 1, 2 and 3 fair value measurements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
 As at and for the year ended 31 December 2025

8 CASH AND BALANCES WITH CENTRAL BANKS

	2025	2024
Cash on hand	469,623	392,584
Cash reserve with QCB*	5,347,208	5,225,856

Goodwill arising on the acquisition of Al Khalij's net assets

The goodwill arose on the Group's acquisition of Al Khaliji's net assets. Based on the Purchase Price Allocation ("PPA") exercise performed by an external consultant following the merger, the Group recognised QAR 924,407 thousand as intangible assets and QAR 877,486 thousand as goodwill.

Impairment assessment of goodwill

For the purpose of impairment testing, goodwill has been allocated to the Group's CGU's (operating segments) as follows:

	<i>2025</i>	<i>2024</i>
Corporate banking	<u>705,587</u>	<u>705,587</u>
Retail banking	<u>171,899</u>	<u>171,899</u>
	<u>877,486</u>	<u>877,486</u>

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at and for the year ended 31 December 2025

14 INTANGIBLE ASSETS (continued)

Impairment assessment of goodwill (continued)

The carrying amount of a CGU is derived using a capital allocation model where the Group's core equity capital is allocated to the CGUs. The Group determines the recoverable amounts of its CGUs based on VIU calculations and FVL COD. These methods reflect the specifics of the banking business and its regulatory environment.

Key inputs for VIU calculation and impairment testing

The VIU calculation used projected cash flows in perpetuity through a five-year forward period of projections, and thereafter applying a terminal growth rate.

Assumptions used for VIU calculations to which the recoverable amount is most sensitive were:

a) Terminal Growth rates

The terminal growth rate of 2.5% (2024: 2.5%) has been based on estimates provided by macro-economic research and analyst reports. The growth rates do not exceed the long-term average growth rate for the business sector of the economy in which the CGU operates.

b) Discount rates

Discount rates reflect management's estimate of required rate of return for each business. This is the benchmark used by management to assess operating performance and to evaluate future investment proposals. Discount rates are calculated by using the Cost of Equity ("CoE") of 9.7% (2024: 9.9%).

The recoverable amounts of the CGU were higher than the carrying amounts. Consequently, no impairment was considered necessary as at the end of the reporting period.

Significant change: impact of possible changes in key assumptions

If the terminal growth rate used in calculating the VIUs decreased by 25 basis points or if the cost of equity increased by 25 basis points, with other variables held unchanged, the recoverable amounts of the CGU would still be higher than the respective carrying amount, hence, no impairment would be recognised in either scenario.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
 As at and for the year ended 31 December 2025

14 INTANGIBLE ASSETS (continued)

Other intangible assets

The following approach was followed to estimate the fair value of identifiable intangibles:

Other intangible assets	Useful life	Valuation approach and methodologies
Customer relationships	8 years	<p>Customer relationship intangible assets represent the value attributable to the business expected to be generated from customers that existed as at the acquisition date.</p> <p>The income approach has been used in estimating the fair value of Al Khaliji's customer relationships as an intangible asset as at the effective date. The income approach values the customer relationship as the present value of the future earnings that it is expected to generate over its remaining useful economic life.</p> <p>Under the income approach, the Multi-period excess earnings method ("MPEEM") has been utilized which is a commonly accepted method for valuing customer relationships.</p> <p>MPEEM is a specific application of the discounted cash flow method where the value of an intangible asset is taken as the present value of the incremental (after-tax) cash flows attributable only to the subject intangible asset after deducting contributory asset charges ("CAC").</p> <p>The principle behind CAC is that an intangible asset "rents" or "leases" from a hypothetical third party all the assets it requires to produce the cash flows resulting from its development, that each project rents only those assets it needs (including element of goodwill) and not the ones that it does not need, and that each project pays the owner of the assets a fair return on (and of, when appropriate) the fair value of the rented assets.</p> <p>Thus, any net cash flows remaining after the CAC are attributable to the subject intangible asset being valued. The incremental after-tax cash flows attributable to the subject intangible asset are then discounted to their present value.</p>
Core deposits	10 years	<p>Core deposits acquired from Al Khaliji were identified as those customers holding current and savings accounts ("CASA"). The value of core deposit intangible asset arises from the fact that the deposit base of the Group represents a cheaper source of funding than wholesale or money market funding (alternative cost of funding).</p> <p>The incremental saving approach to valuation has been used in estimating the fair value of the core deposits as an intangible asset as at the effective date of the business combination. Under this method, the economic benefits earned from the core deposits have been computed over the life of the core deposits considering an attrition rate. The incremental savings approach values the core deposits as the present value of the future savings that are expected to be generated over its remaining useful economic life. The incremental savings method utilized is a commonly accepted method for valuing core deposits.</p>
License	5 years	<p>License intangible assets represent the value attributable from operating profit expected to be generated by the Group's subsidiary, Al Khaliji France S.A. from its operations in France and United Arab Emirates. The intangible asset was valued using the multi-period excess earnings method, a commonly applied methodology for valuing operating license.</p>

The Group estimates the useful life of the intangible assets as defined in the above table. However, the actual useful life may be shorter or longer than the indicated years. If the useful life increases / decreases by 10%, the carrying amount of the intangible assets would be QAR 1,354 million / QAR 1,313 million, respectively as at 31 December 2025 (2024: QAR 1,465 million / QAR 1,432 million, respectively).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

15 OTHER ASSETS

	2025	2024
Assets held by non-Shari'a-compliant subsidiary ²	2,992,930	3,073,032
Positive fair value of Shari'a-compliant risk management instruments	298,459	371,095
Repossessed assets	277,625	50,000
Prepayments and other advances ³	41,736	29,948
Deferred tax asset (Note 32)	8,370	11,535
Accrued income	2,725	3,413
Others	81,069	104,011
Allowance for impairment ¹	<u>(3,612)</u>	<u>(3,261)</u>
	<u>3,699,302</u>	<u>3,639,773</u>

¹ For stage-wise exposure and allowance for impairment, refer to Note 4.2.5.

² Assets held by non-Shari'a-compliant subsidiary consist of the following asset portfolio acquired by the Bank in a business combination:

	2025	2024
Cash and balances with central banks	269,805	620,251
Due from banks	957,459	906,854
Loans and advances to customers	1,222,591	1,176,420
Investment securities	507,341	336,484
Property and equipment	8,062	6,051
Other assets	<u>27,672</u>	<u>26,972</u>
	<u>2,992,930</u>	<u>3,073,032</u>

³ The outstanding amount of security deposit paid by the Group to the lessor as at 31 December 2025 amounted to QAR 1,267 thousand (2024: QAR 1,150 thousand).

16 DUE TO BANKS

	2025	2024
Current and short-term investment accounts	461,656	402,869
Wakala payable	10,129,345	17,259,834
Repurchase agreements	16,187,795	5,036,914
Commodity murabaha payable	1,555,074	947,058
Profit payable to banks	<u>48,747</u>	<u>110,185</u>
	<u>28,382,617</u>	<u>23,756,860</u>

Wakala payable includes various facilities with maturities of less than one year and carries profit rates of 2.00% to 4.70% (2024: maturities of less than one year and carries profit rates of 4.25% to 6.78%).

The market value of securities given as collateral against the repurchase agreements are QAR 16,189 million (2024: QAR 5,367 million).

20 OTHER LIABILITIES (continued)

(a) Net Ijarah liabilities (continued)

The table below shows the maturity profile of gross and net Ijarah liabilities:

	<i>2025</i>	<i>2024</i>		
	<i>Gross Ijarah liabilities</i>	<i>Deferred Ijarah cost</i>	<i>Net Ijarah liabilities</i>	<i>Net Ijarah liabilities</i>
Up to 12 months	6,253	(305)	5,948	5,483
Between 1 to 5 years	<u>5,151</u>	<u>(441)</u>	<u>4,710</u>	<u>4,559</u>
	<u>11,404</u>	<u>(746)</u>	<u>10,658</u>	<u>10,042</u>

(b) Provision for employees' end of service benefits

	<i>2025</i>	<i>2024</i>
Balance as at 1 January	100,524	54,706
Provisions made during the year	15,472	51,050
Paid during the year	<u>(5,269)</u>	<u>(5,232)</u>
Balance as at 31 December	<u>110,727</u>	<u>100,524</u>

(c) Liabilities of a non-Shari'a-compliant subsidiary

	<i>2025</i>	<i>2024</i>
Due to banks	9,039	11,115
Customer deposits	1,681,576	1,944,315
Subordinated debt ¹	106,803	94,744
Other liabilities	<u>91,350</u>	<u>117,458</u>
	<u>1,888,768</u>	<u>2,167,632</u>

¹ Subordinated debt was assumed by the Bank upon merger with Al Khaliji and consists of a debt amounting to EUR 25 million for an undetermined maturity period which carried in 2025 profit at a rate equal to ESTR. This debt will, in the event of the winding-up of the issuer, be subordinated to the claims of depositors and all other creditors of the issuer.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
 As at and for the year ended 31 December 2025

21 PARTICIPATORY INVESTMENT ACCOUNTS

	<i>2025</i>	<i>2024</i>
(a) By type		
Saving accounts	8,669,388	7,662,489
Term accounts	91,312,939	87,897,068
Short-term investment accounts	2,498,947	4,252,571
Profit payable to participatory investment account holders	816,388	765,502
Share in the fair value reserve	<u>1,657</u>	<u>1,992</u>
	<u>103,299,319</u>	<u>100,579,622</u>
(b) By sector		
Government	48,568,788	52,471,377
Non-banking financial institutions	7,323,086	5,194,462
Individuals	34,847,370	33,396,178
Corporate	11,742,030	8,750,111
Profit payable to participatory investment account holders	816,388	765,502
Share in the fair value reserve	<u>1,657</u>	<u>1,992</u>
	<u>103,299,319</u>	<u>100,579,622</u>

In accordance with QCB circular No. 87/2008, no risk reserve is deducted from the profit related to the participatory investment accounts and the total risk reserve is transferred from the shareholders' profit as an appropriation.

22 EQUITY

(a) Share capital

	<i>2025</i>	<i>2024</i>
<i>Authorised, issued and paid up</i> 9,300,000,000 shares at QAR 1 each	<u>9,300,000</u>	<u>9,300,000</u>

(b) Legal reserve

	<i>2025</i>	<i>2024</i>
Balance as at 1 January	9,644,166	9,644,166
Transfer from retained earnings (i)	-	-
Balance as at 31 December	<u>9,644,166</u>	<u>9,644,166</u>

(i) According to QCB Law No. 13 of 2012, 10% of the profit for the year is required to be transferred to the legal reserve until the reserve equals 100% of the paid up capital. Accordingly, no transfer has been made for the year ended 31 December 2025, as the legal reserve reached 100% of the paid up capital prior to transfer from retained earnings for the current year (2024: Nil).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
 As at and for the year ended 31 December 2025

22 EQUITY (continued)

(c) Risk reserve

In accordance with QCB circular 102/2011, risk reserve has been created to cover contingencies on both the public and private sector financing activities, with a minimum requirement of 2.5% of the total private sector exposure granted by the Group inside and outside Qatar after the exclusion of provisions and profit in suspense. The finance provided to/or secured by the Ministry of Finance or finance against cash guarantees are excluded from the gross direct financing, which should be appropriated from shareholders' profit according to QCB instructions.

(d) Fair value reserve

	2025	2024
Balance as at the 1 January	<u>51,278</u>	<u>41,439</u>
Net unrealised (losses) / gains	(9,761)	6,086
Share of other comprehensive income of associates	547	2,465
Transfer to retained earnings upon disposal of FVOCI equity investments	-	1,495
Share in the reserve attributable to quasi-equity	335	(207)
Net fair value movement	<u>(8,879)</u>	<u>9,839</u>
Balance as at 31 December (shareholders' share)	<u>42,399</u>	<u>51,278</u>

(e) Foreign currency translation reserve

The foreign currency translation reserve comprises all foreign exchange differences arising from the translation of the financial statements of foreign operations.

(f) Other reserves

Other reserves consist of the following:

	2025	2024
Share in profit from investment in associates, net of cash dividend	140,842	135,693
Share in the associate's actuarial gain on employees' defined benefit obligations	<u>262</u>	<u>236</u>
	<u>141,104</u>	<u>135,929</u>

The movement in other reserves during the year is as follows:

	2025	2024
Balance as at 1 January	135,929	152,632
Share of results of associates	35,786	62,234
Dividends received from associates	(26,100)	(22,150)
Share in the associate's actuarial gain on employees' defined benefit obligations	26	(2)
Relating to disposal of associates	-	(27,215)
Other movement	<u>(4,537)</u>	<u>(29,570)</u>
Balance as at 31 December	<u>141,104</u>	<u>135,929</u>

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at and for the year ended 31 December 2025

22 EQUITY (continued)

(g) Proposed dividend

The Board of Directors in its meeting held on 21 January 2026 proposed a cash dividend of 11% (2024: 10%) of the share capital amounting to QAR 1,023 million (2024: QAR 930 million). This proposal is subject to the approval of the shareholders' annual general assembly and the regulators in the State of Qatar.

23 NON-CONTROLLING INTEREST

This represents the non-controlling interest in Al Rayan Bank plc (26.24%) (2024: 26.24%).

24 INSTRUMENT ELIGIBLE AS ADDITIONAL CAPITAL

Upon merger with Al Khaliji, the Group assumed the QAR 1 billion Tier 1 capital notes (the "Notes") that was originally issued by Al Khaliji in March 2016. The Notes are perpetual, subordinated, unsecured and has been issued at a fixed profit rate for the first five years and re-priced in 2021. The coupon is discretionary and the event of non-payment is not considered as an event of default. The Notes carry no maturity date and have been classified under Tier 1 capital.

25 INCOME FROM FINANCING ACTIVITIES

	2025	2024
Income from Murabaha	4,152,275	4,720,818

¹ International Tax Reform – Pillar Two Model Rules – Amendments to IAS 12

On March 27, 2025, Law #22 of 2024 was published in the Official Gazette of Qatar introducing an Income Inclusion Rule (IIR) and a Domestic Minimum Top-Up Tax (“DMTT”) for fiscal years starting on or after January 1, 2025. The legislation closely aligns with the OECD GloBE Model Rules. It is stated (article 23 of Law #22) that it shall be interpreted and applied consistently with the OECD GloBE Model Rules, the related Commentary and the Agreed Administrative Guidance. The GloBE Model Rules and Commentary allow optionality for jurisdictions in relation to certain design features. For Qatar the chosen options will be clarified in the forthcoming Executive Regulations, which are expected to be issued in due course.

GloBE Model Rules provide for an Exclusion for the MNE Groups in the initial phases of their international activity, outlined in Article 9.3 of the GloBE Model Rules in relation to the Undertaxed Profits Rule (“UTPR”). Application of Article 9.3 in the context of a Qualified DMTT is outlined in article 118.51 of the Commentary. It provides three options for the implementation of Article 9.3, including option 1 - non adoption, and options 2 and 3, which provide for adoption of the Exclusion with different variations. Law #22 of 2024 doesn't specify which option will be implemented in Qatar, and this is expected to be clarified in the forthcoming Regulations. If option 2 or option 3 will be adopted in Qatar, the Group will be eligible for the Exclusion since the conditions for this Exclusion are met:

- The MNE Group is not located in more than 6 jurisdictions
- The net book value of tangible assets across all jurisdictions other than the "reference jurisdiction" does not exceed EUR 50 million

The Group needs to register for Pillar 2 purposes in the relevant jurisdictions, and has been complying with filing and other requirements as applicable in each jurisdiction. Further, foreign subsidiaries may subject to DMTT in their respective jurisdictions, or to IIR in Qatar. Management has performed a high-level impact assessment based on the management accounts for FY 2025, including consideration of the Transitional Country-by-Country Reporting (“CbCR”) Safe Harbour Rules.

The Group continues to monitor further the GloBE developments in Qatar and the other relevant jurisdictions, including the issuance of Executive Regulations, which may affect future tax calculations and compliance obligations.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
 As at and for the year ended 31 December 2025

33 CONTINGENT LIABILITIES AND COMMITMENTS

(a) Contingent liabilities

	2025	2024
Unutilised credit facilities	3,465,169	5,544,378
Guarantees	10,394,911	9,115,955
Letters of credit	<u>1,184,732</u>	<u>1,105,526</u>
	<u>15,044,812</u>	<u>15,765,859</u>
Contingent liabilities of a non-Shari'a-compliant subsidiary ¹	<u>442,970</u>	<u>446,160</u>

¹ Contingent liabilities of a non-Shari'a-compliant subsidiary consist of the following:

	2025	2024
Unutilised credit facilities	274,024	241,967
Guarantees	163,627	201,156
Letters of credit	<u>5,319</u>	<u>3,037</u>
	<u>442,970</u>	<u>446,160</u>

(b) Other undertakings and commitments

	2025	2024
Profit rate swap	6,158,665	5,812,950
Unilateral promise to buy/sell currencies	6,187,927	8,694,565
Cross currency swap	<u>540,670</u>	<u>33,225</u>
	<u>12,887,262</u>	<u>14,540,740</u>
	2025	2024
Capital and other commitments	<u>30,299</u>	<u>54,025</u>

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
 As at and for the year ended 31 December 2025

36 BASIC AND DILUTED EARNINGS PER SHARE

Basic earnings per share is calculated by dividing the net profit for the year attributable to the equity holders of the Bank by the weighted average number of ordinary shares outstanding during the year.

	2025	2024
Profit for the year attributable to equity holders of the Bank	1,530,329	1,507,071
Less: Distribution for Tier 1 Capital notes	<u>(46,000)</u>	<u>(46,000)</u>
Profit for earnings per share computation	<u><u>1,484,329</u></u>	<u><u>1,461,071</u></u>
Weighted average number of shares outstanding during the year (thousand)	<u><u>9,300,000</u></u>	<u><u>9,300,000</u></u>
Basic earnings per share (QAR)	<u><u>0.160</u></u>	<u><u>0.157</u></u>

There were no potentially dilutive shares outstanding at any time during the year. Therefore, the diluted earnings per share are equal to the basic earnings per share.

37 CASH AND CASH EQUIVALENTS

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise the following balances with original maturities of less than three months from the acquisition date:

	2025	2024
Cash on hand and balances with central banks excluding cash reserve with QCB	531,722	446,002
Due from banks	3,659,324	4,512,932
Investment securities	29,350	822,530
Add: Allowance for impairment	<u>5</u>	<u>29</u>
	<u><u>4,220,401</u></u>	<u><u>5,781,493</u></u>

¹ Includes close family members

² Major shareholders owning directly or indirectly 5% or more of capital

All the transactions with the related parties are substantially on the same terms, including profit rates and collateral, as those prevailing in comparable transactions with unrelated parties.

(b) Transactions with key management personnel

The remuneration of directors and other members of key management during the year were as follows:

	2025	2024
Remuneration to Board of Directors including meeting allowance (Note 31)	<u>22,333</u>	<u>24,867</u>
<i>Key management</i>		
Short term employee benefits	<u>24,197</u>	<u>19,347</u>
Other long-term benefits	<u>884</u>	<u>923</u>
	<u>25,081</u>	<u>20,270</u>

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2025

39 SHARI'A-COMPLIANT RISK MANAGEMENT INSTRUMENTS**(a) Profit rate swap**

Swaps are commitments to exchange one set of cash flows for another. In the case of profit rate swaps, counterparties generally exchange fixed and floating profit payments in a single currency without exchanging principal. In the case of currency swaps, profit payments and principal are exchanged in different currencies.

(b) Unilateral promise to buy/sell currencies

Unilateral promises to buy/sell currencies are promises to either buy or sell a specified currency at a specific price and date in the future. The actual transactions are executed on the promise dates, by exchanging the purchase/sale offers and acceptances between the relevant parties.

The table below shows the positive and negative fair values of Shari'a-compliant risk management instruments together with the notional amounts analysed by the term to maturity. The notional amounts, which provide an indication of the volumes of the transactions outstanding at the year-end, do not necessarily reflect the amounts of future cash flows involved and the credit and market risk, which can be identified from the fair value of Shari'a-compliant risk management instruments.

	<i>Positive fair value</i>	<i>Negative fair value</i>	<i>Notional amount</i>	<i>Within 3 months</i>	<i>3 - 12 months</i>	<i>1 - 5 years</i>	<i>Over 5 years</i>
2025							
Shari'a-compliant risk management instruments							
Profit rate swaps	181,604	53,743	6,158,665	182,026	744,178	4,929,111	303,350
Unilateral promise to buy/sell currencies	114,285	29,262	6,187,927	4,268,504	1,879,123	40,300	-
Cross currency swap	2,570	695	540,670	-	-	540,670	-
	298,459	83,700	12,887,262	4,450,530	2,623,301	5,510,081	303,350
2024							
Shari'a-compliant risk management instruments							
Profit rate swaps	343,894	94,054	5,812,950	72,811	760,939	3,854,502	1,124,698
Unilateral promise to buy/sell currencies	27,201	249,631	8,694,565	6,720,023	1,974,542	-	-
Cross currency swap	-	9,960	33,225	33,225	-	-	-
	371,095	353,645	14,540,740	6,826,059	2,735,481	3,854,502	1,124,698

Hedge ineffectiveness in relation to the profit rate swaps designated as hedging instruments was negligible for 2025 and 2024.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at and for the year ended 31 December 2025

40 Zakat

Zakat is directly borne by the equity holders. The Group does not collect or pay Zakat on behalf of its equity holders in accordance with the Articles of Association.

41 SHARI'A SUPERVISORY BOARD

The Shari'a supervisory Board of the Group consists of three scholars who are specialised in Shari'a principles and they ensure the Group's compliance with general Islamic principles and work in accordance with the issued Fatwas and guiding rules. The Board's review includes examining the evidence related to documents and procedures adopted by the Group in order to ensure that its activities are according to the principles of Islamic Shari'a.

42 SOCIAL RESPONSIBILITY

Pursuant to Law No. 13 of 2008 and further clarifications of the law issued in 2010, the Group established QAR 38.3 million for an amount equivalent to 2.5% of the net profit relating to the year ended 31 December 2025 (2024: QAR 37.7 million) for the support of sports, cultural and charitable activities. The social and sports contribution was funded through the utilisation of the Group's available charity fund (Note 43).

43 SOURCES AND APPLICATION OF CHARITY FUND
