**To the Unit Holders of Al Rayan Qatar ETF
Doha – Qatar**

Introduction

We have reviewed the accompanying interim condensed financial statements of Al Rayan Qatar ETF (“the Fund”) which comprise the interim condensed statement of financial position as at June 30, 2020, and the related interim condensed statements of income for the three month and six month periods ended 30 June 2020 interim condensed statement of changes in net assets attributable to unit holders and cash flows for the six-month period then ended, and certain explanatory notes. The Manager of the Fund is responsible for the preparation and presentation of these interim condensed financial statements in accordance with the Financial Accounting Standards issued by the Accounting and Auditing Organisation for Islamic Financial Institutions (“AAOIFI”) and the applicable provisions of Qatar Central Bank regulations (“QCB”). Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of the interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Other matter

The financial statements and interim condensed financial statements of the Fund for the year ended December 31, 2019 and for the six-month period ended June 30, 2019, respectively, were audited / reviewed by another auditor who expressed an unmodified audit report and review conclusion on those statements on January 20, 2020 and July 15, 2019, respectively.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not presented fairly, in all material respects, in accordance with the Financial Accounting Standards issued by the AAOIFI and applicable provisions of the Qatar Central Bank regulations.

2. BASIS OF PREPARATION

(a) Statement of compliance

The interim condensed financial statements have been prepared in accordance with Financial Accounting Standards (“FAS”) issued by the Accounting and Auditing Organisation for Islamic Financial Institutions (“AAOIFI”) and applicable provisions of the Qatar Central Bank (“QCB”) regulations. In line with the requirements of AAOIFI, for matters that are not covered by FAS, the Fund uses the guidance from the relevant International Financial Reporting Standards (“IFRSs”) as issued by the International Accounting Standards Board (“IASB”). Accordingly, the interim condensed financial statements have been prepared in accordance with the guidance provided by International Accounting Standard 34 – ‘Interim Financial Reporting’.

2. BASIS OF PREPARATION (CONTINUED)

(a) Statement of compliance (continued)

The interim condensed financial statements do not contain all information and disclosures required in the annual financial statements, and should be read in conjunction with the Fund's annual financial statements as at 31 December 2019. In addition, results for the six-month period ended 30 June 2020 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2020.

(b) Basis of measurement

These interim condensed financial statements have been prepared under the historical cost convention, except for investment securities classified as fair value through income statement which are carried at fair value.

(c) Functional and presentational currency

The interim condensed financial statements are presented in Qatari Riyal ("QAR"), which is the Fund's functional and presentational currency.

3. SIGNIFICANT ACCOUNTING POLICIES

(i) New standards, amendments and interpretations effective from 1 January 2020

FAS 33 - Investment in sukuk, shares and similar instruments

AAOIFI has issued FAS 33 'Investment in sukuk, shares and similar instruments' in 2018. FAS 33 supersedes the earlier FAS 25 - Investment in sukuks, shares and similar instruments. The objective of this standard is to set out improved principles for classification, recognition, measurement, presentation and disclosure of investments in sukuk, shares and other similar instruments of investment made by Islamic Financial Institutions in line with Shari'ah principles.

The new standards are effective for annual reporting periods beginning on or after 1 January 2020 and have no material impact on the Fund's interim condensed financial statements.

4. FINANCIAL RISK MANAGEMENT

The Fund's financial risk management objectives and policies are consistent with those disclosed in the financial statements as at and for the year ended 31 December 2019.

(i) Valuation of financial instruments

The Fund uses the following hierarchy for determining and disclosing the fair value of financial investments by valuation technique:

- Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: Valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.; and
- Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

4. FINANCIAL RISK MANAGEMENT (CONTINUED)*(i) Valuation of financial instruments (continued)*

Financial assets at fair value through profit or loss are valued as per Level 1 valuation method.

(ii) Financial instruments classification

The Fund held the following financial assets at fair value through income statement as at the end of the reporting periods:

<u>Date of valuation</u>	<u>Fair value</u> <i>QAR</i>	<u>Level 1</u> <i>QAR</i>	<u>Level 2</u> <i>QAR</i>	<u>Level 3</u> <i>QAR</i>
June 30, 2020	<u>456,426,578</u>	<u>456,426,578</u>	--	--
December 31, 2019	<u>521,645,857</u>	<u>521,645,857</u>	--	--

The fair values of financial assets and financial liabilities carried at amortized cost are equal to the carrying value, hence, not included in the fair value hierarchy table. Investment securities totalling QAR nil are carried at cost (31 December 2019: QAR nil).

During the reporting periods 30 June 2020 and 31 December 2019, there were no transfers among Levels 1, 2 and 3 fair value measurements.

5. USE OF ESTIMATES AND JUDGMENTS**Key sources of estimation uncertainty**

The preparation of the interim condensed financial statements in conformity with FAS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Determining fair values

The determination of fair value for financial assets and liabilities for which there is no observable market price requires the use of valuation techniques as described in significant accounting policies (financial instruments that trade infrequently and have little price transparency, fair value is less objective, and requires varying degrees of judgement depending on liquidity, concentration, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument).

13. IMPACT OF COVID-19

The rapid spread of the coronavirus (“COVID-19”) pandemic across the globe is causing disruptions to businesses and economic activities. The interim condensed financial statements of the Fund, which are prepared by the management, has reflected the impact of COVID-19 on the financial assets of the Fund, particularly on the assets carried at fair value through income statement, which comprise a significant portion of the Fund’s total asset portfolio. However, the economic conditions remain volatile and the recorded amounts remain sensitive to market fluctuations.
