Report on the review of the interim condensed financial statements to the Unitholders of Al Rayan Qatar ETF

Introduction

We have reviewed the accompanying interim statement of net assets and interim statement of portfolio investments and receivables of Al Rayan Qatar ETF (the “Fund”) as at 31 March 2026 and the related interim statement of operations, interim statement of changes in net assets attributable to the unitholders, interim statement of cash flows and interim statement of financial highlights for the three-month period then ended, and other explanatory notes. The Fund Manager is responsible for the preparation and presentation of these interim condensed financial statements in accordance with Financial Accounting Standard (“FAS”) 41 “Interim financial reporting” issued by the Accounting and Auditing Organisation for Islamic Financial Institutions (“AAOIFI”). Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, “Review of interim financial information performed by the independent auditor of the entity”. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with FAS 41 issued by AAOIFI.

3.1 NEW STANDARDS AND INTERPRETATIONS

a) New standards, amendments and interpretations effective from 1 January 2026

FAS 45 – Quasi-Equity (Including Investment Accounts)

AAOIFI has issued FAS 45 in 2023. This standard prescribes the principles of financial reporting related to the participatory investment instruments (including investment accounts) in which an Islamic financial institution controls the underlying assets (mostly, as a working partner), on behalf of the stakeholders other than the owners' equity. Such instruments (including, in particular, the unrestricted investment accounts) normally qualify for on-balance-sheet accounting and are reported as quasi-equity. This standard also provides the overall criteria for on-balance-sheet accounting for participatory investment instruments and quasi-equity, as well as, pooling, recognition, derecognition, measurement, presentation and disclosure for quasi-equity. It further addresses financial reporting related to other quasi-equity instruments and certain specific issues. The adoption of this standard did not have any significant impact on the Fund's interim condensed financial statements.

FAS 46 – Off-Balance-Sheet Assets Under Management

AAOIFI has issued FAS 46 in 2023. This standard prescribes the criteria for characterisation of off-balance-sheet assets under management, and the related principles of financial reporting in line with the "AAOIFI Conceptual Framework for Financial Reporting". The standard encompasses the aspects of recognition, derecognition, measurement, selection and adoption of accounting policies, related to off-balance-sheet assets under management, as well as certain specific aspects of financial reporting such as impairment and onerous commitments by the institution. The standard also includes the presentation and disclosure requirements, particularly aligning the same with the requirements of the revised *FAS 1 "General Presentation and Disclosures in the Financial Statements"* in respect of the statement of changes in off-balance-sheet assets under management. This standard, along with, *FAS 45 "Quasi-Equity (Including Investment Accounts)"*, supersedes the earlier FAS 27 "Investment Accounts". The adoption of this standard did not have any significant impact on the Fund's interim condensed financial statements.

The adoption of this standard did not have any significant impact on the Fund's interim condensed financial statements.

4. FINANCIAL RISK MANAGEMENT

The Fund's financial risk management objectives and policies are consistent with those disclosed in the financial statements as at and for the year ended 31 December 2025.

a) Valuation of financial instruments

The Fund uses the following hierarchy for determining and disclosing the fair value of financial investments by valuation technique:

- Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: Valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data; and
- Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Financial assets at fair value through income statement are valued as per Level 1 valuation method.

The Fund held the following financial assets at fair value through income statement as at the end of the reporting periods:

13. GEOPOLITICAL SITUATION

The geopolitical environment in the Middle East has deteriorated since March 2026 and remains subject to ongoing developments. These conditions have created indirect effects across several countries in the region, including Qatar, resulting in disruption to certain economic and business activities and heightened uncertainty in the operating environment.

The Fund continues to monitor developments for potential credit risk implications. Since ECL exposure is limited to bank balances, as investment securities are listed and measured at fair value with market changes already reflected, overall risk remains minimal. The Fund has reinforced its monitoring framework across macroeconomic variables, early warning indicators, and portfolio exposures.
